Mineola, N.Y. 11501

HOW TO ADJUST THE BANNERS

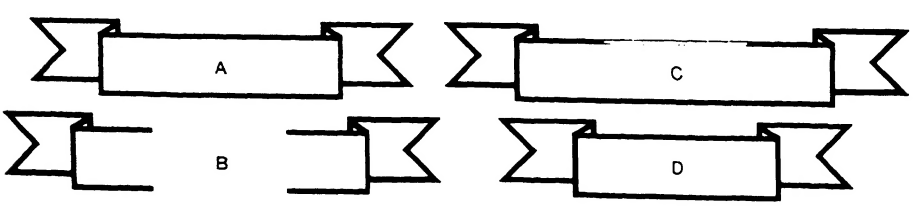
Many of the banners in this book can be lengthened or shortened by following these simple steps.

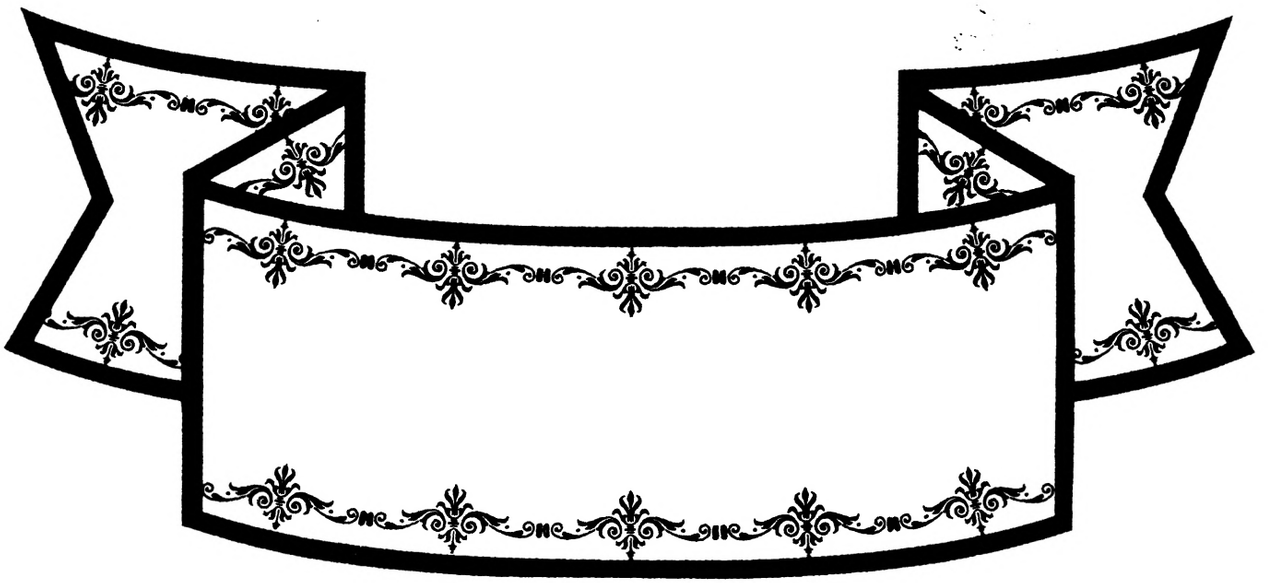
TO LENGTHEN A BANNER

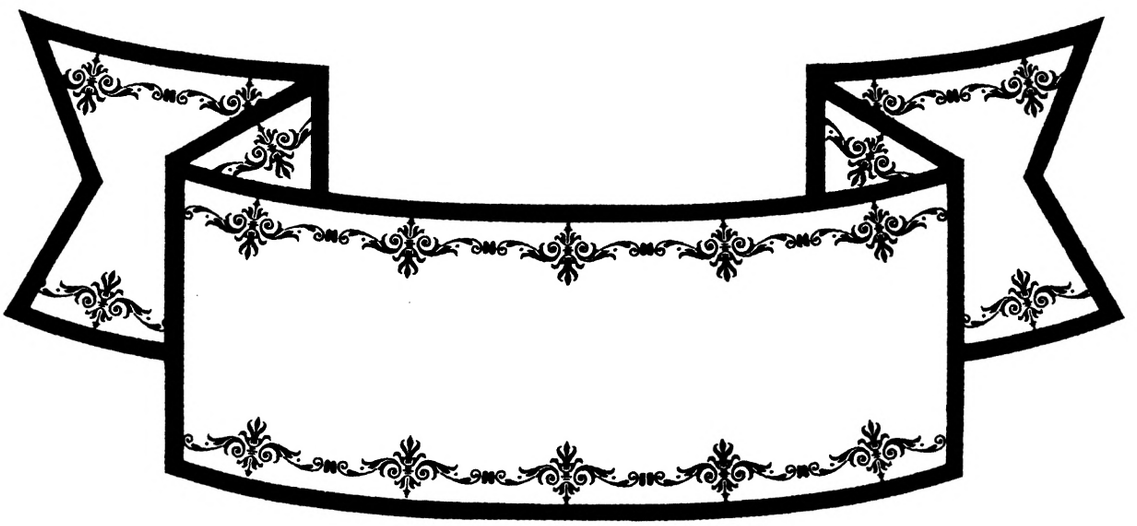
FIGURE A is the banner as it appears in this book.
FIGURE B shows the banner cut in half at the exact mid-point of the design and moved apart to the new, desired length.
FIGURE C shows the inked in lines between the two separated sides of the banner. Fill in the new lines and touch up with white paint if necessary.

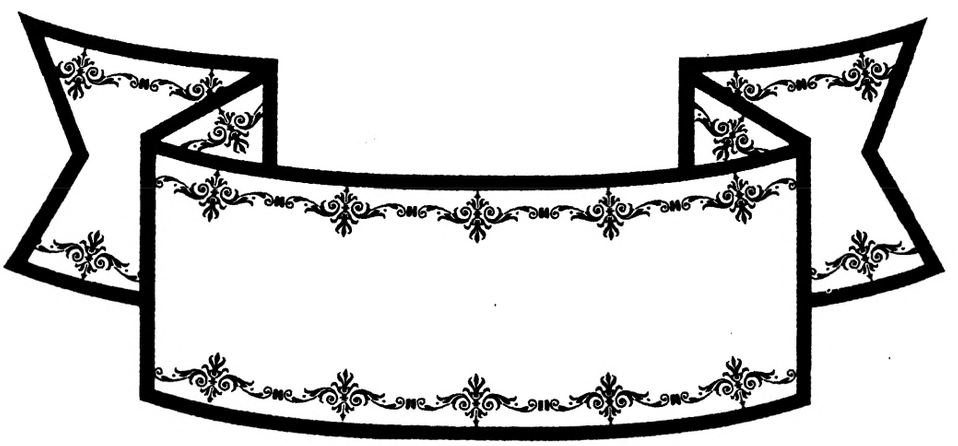
TO SHORTEN A BANNER

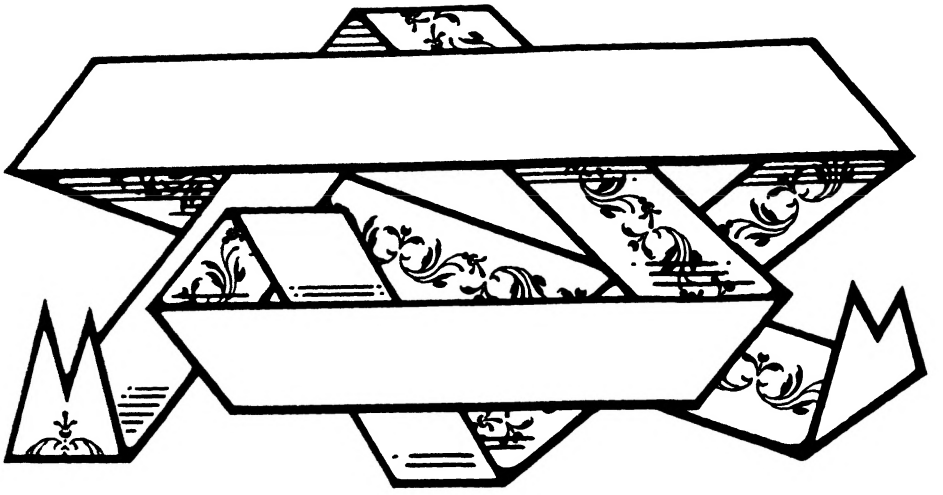
FIGURE A is the banner as it appears in this book.
FIGURE D shows the same banner shortened to the new, desired length. To achieve this, simply cut the excess width from the exact center portion of the banner and move the two sides together. Touch up the join with ink if necessary.

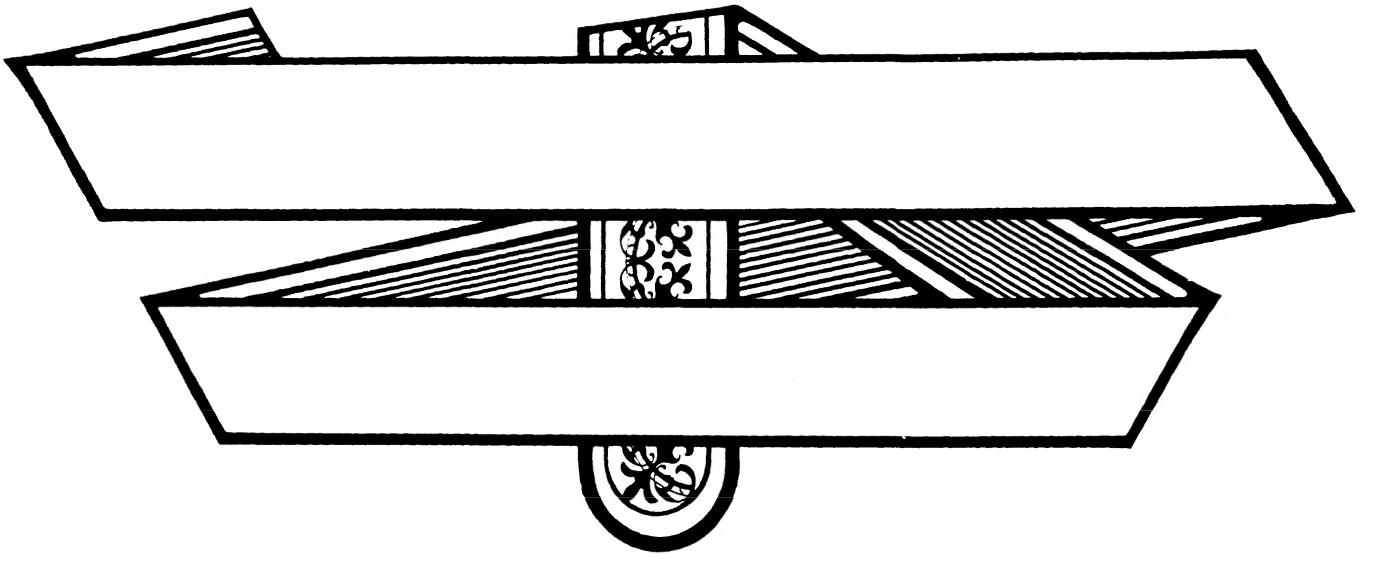


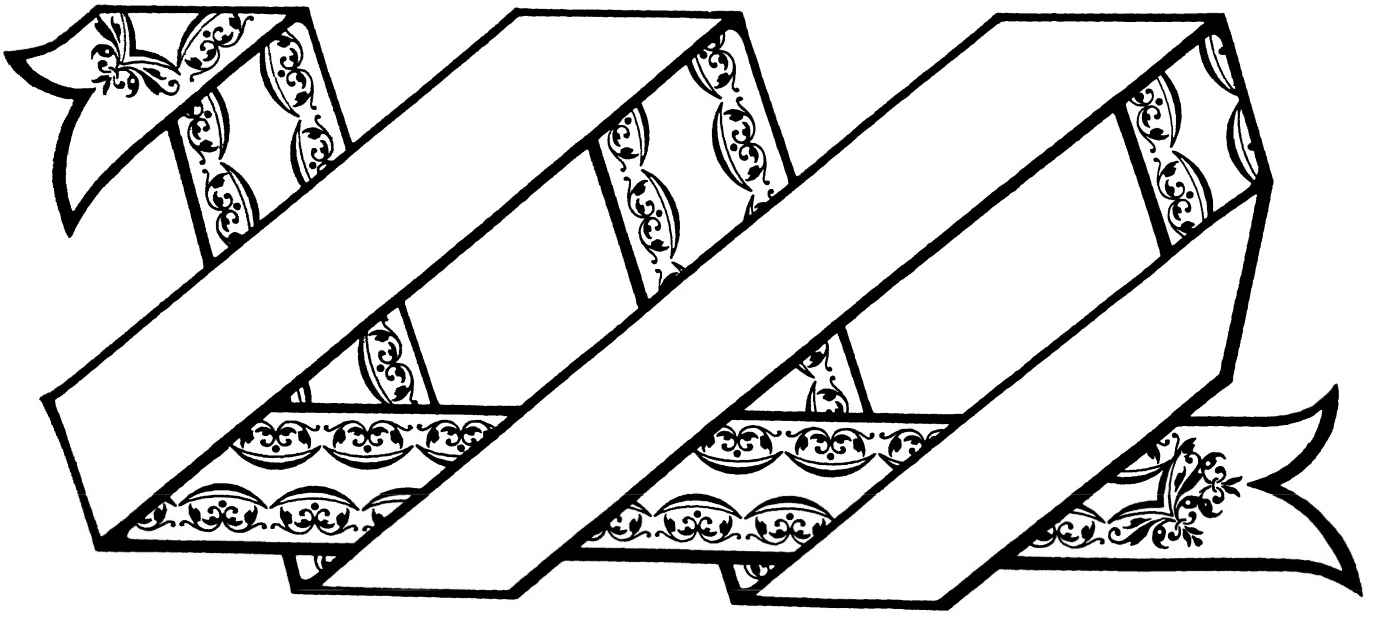


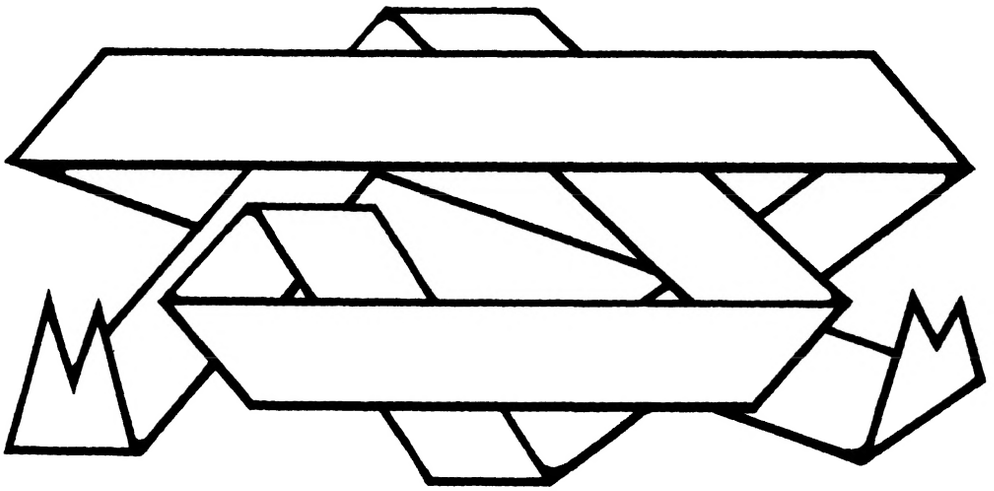


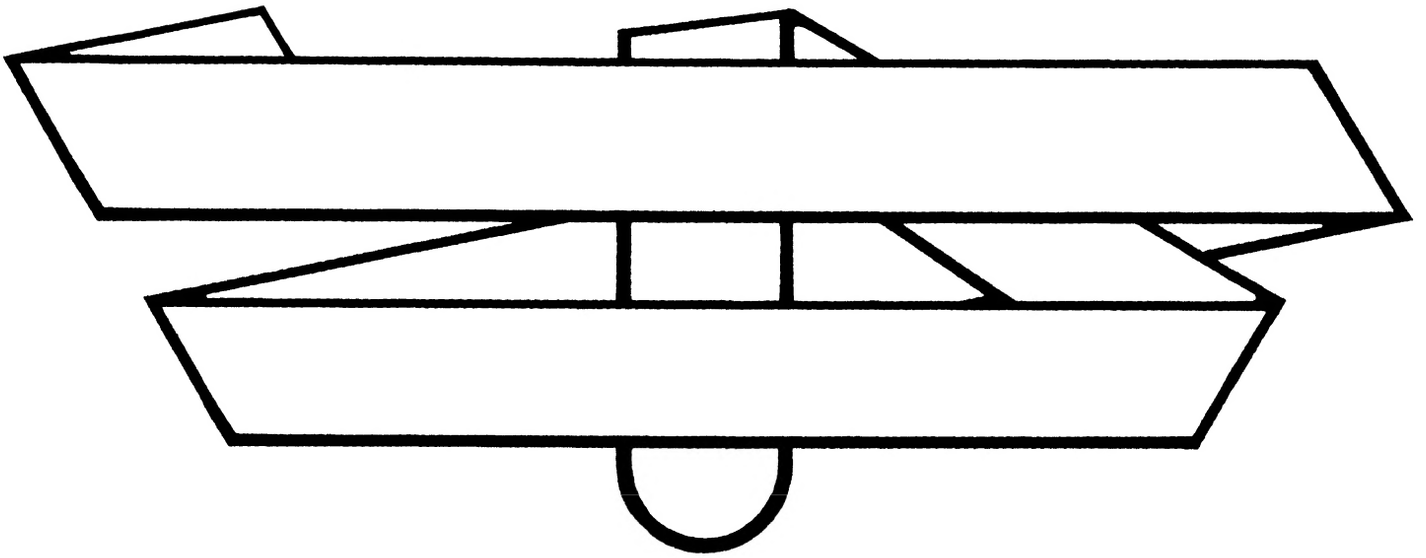


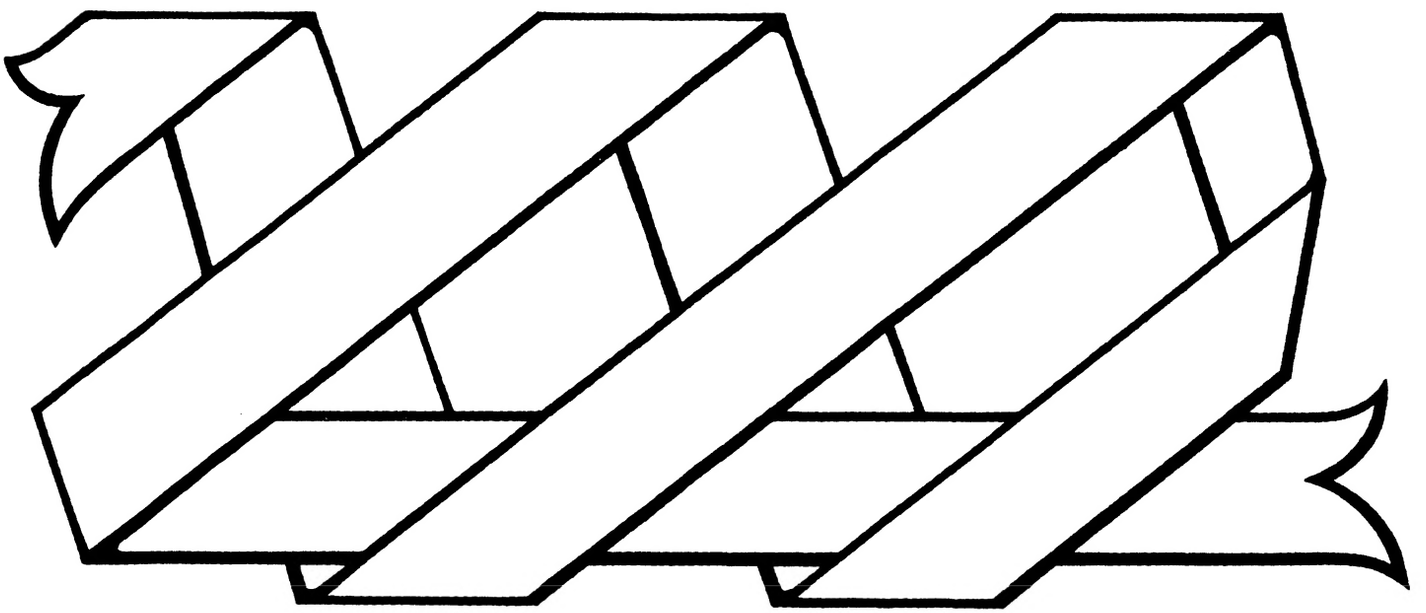


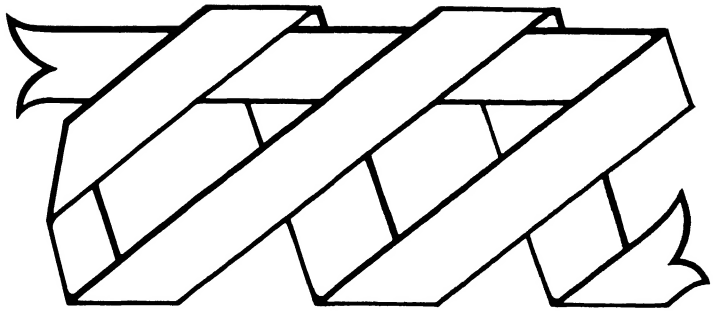


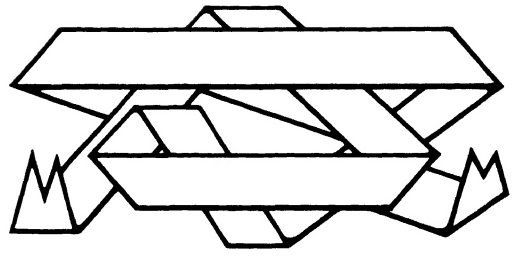


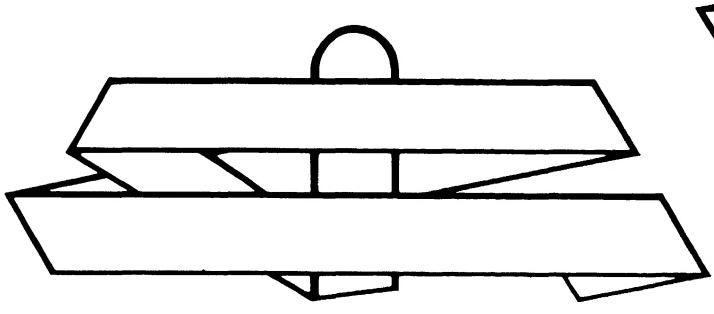


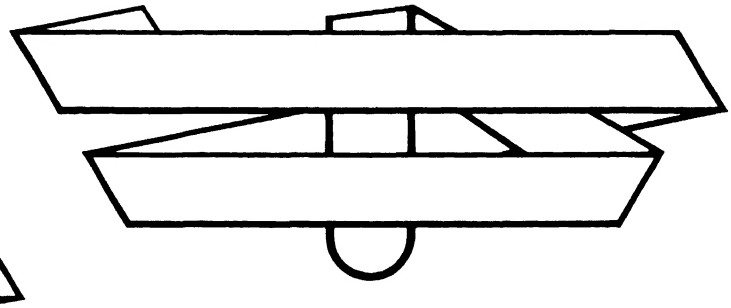


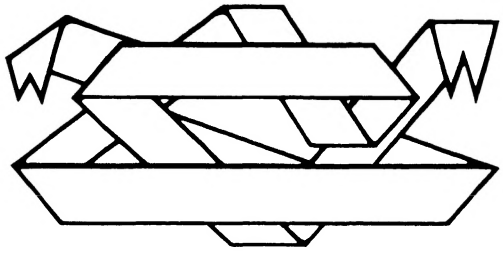


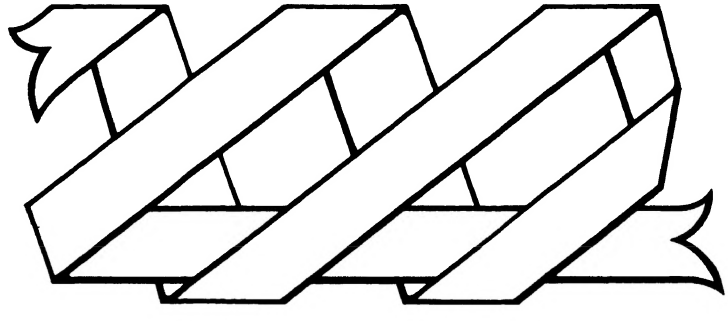


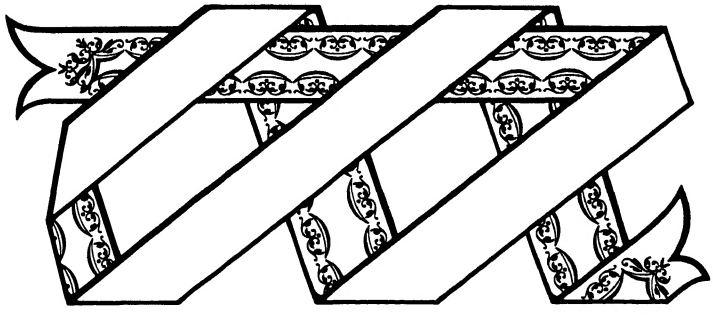


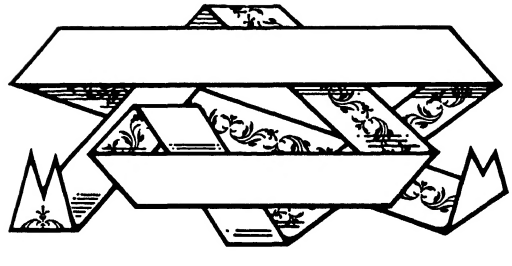


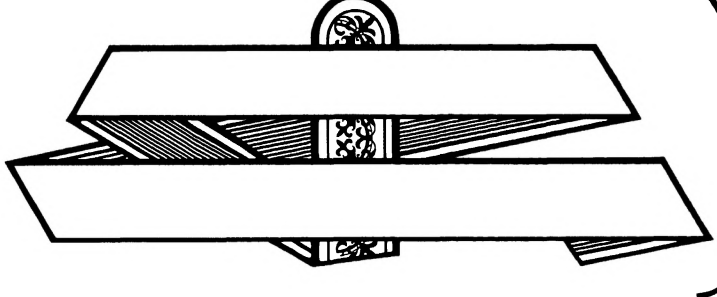


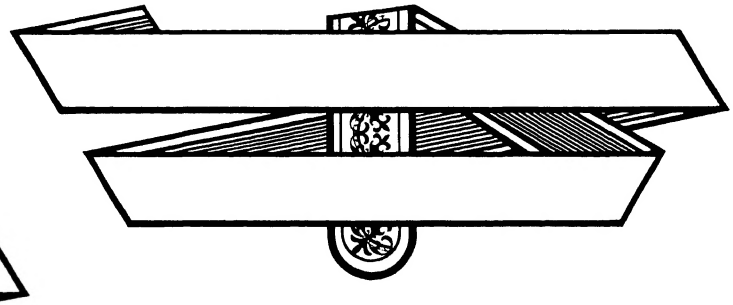


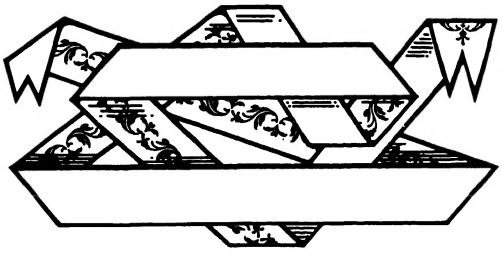


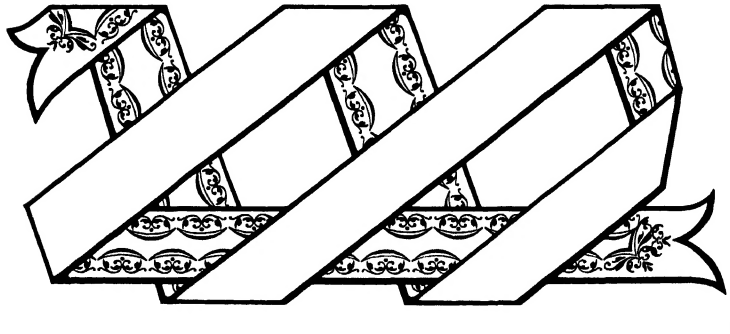


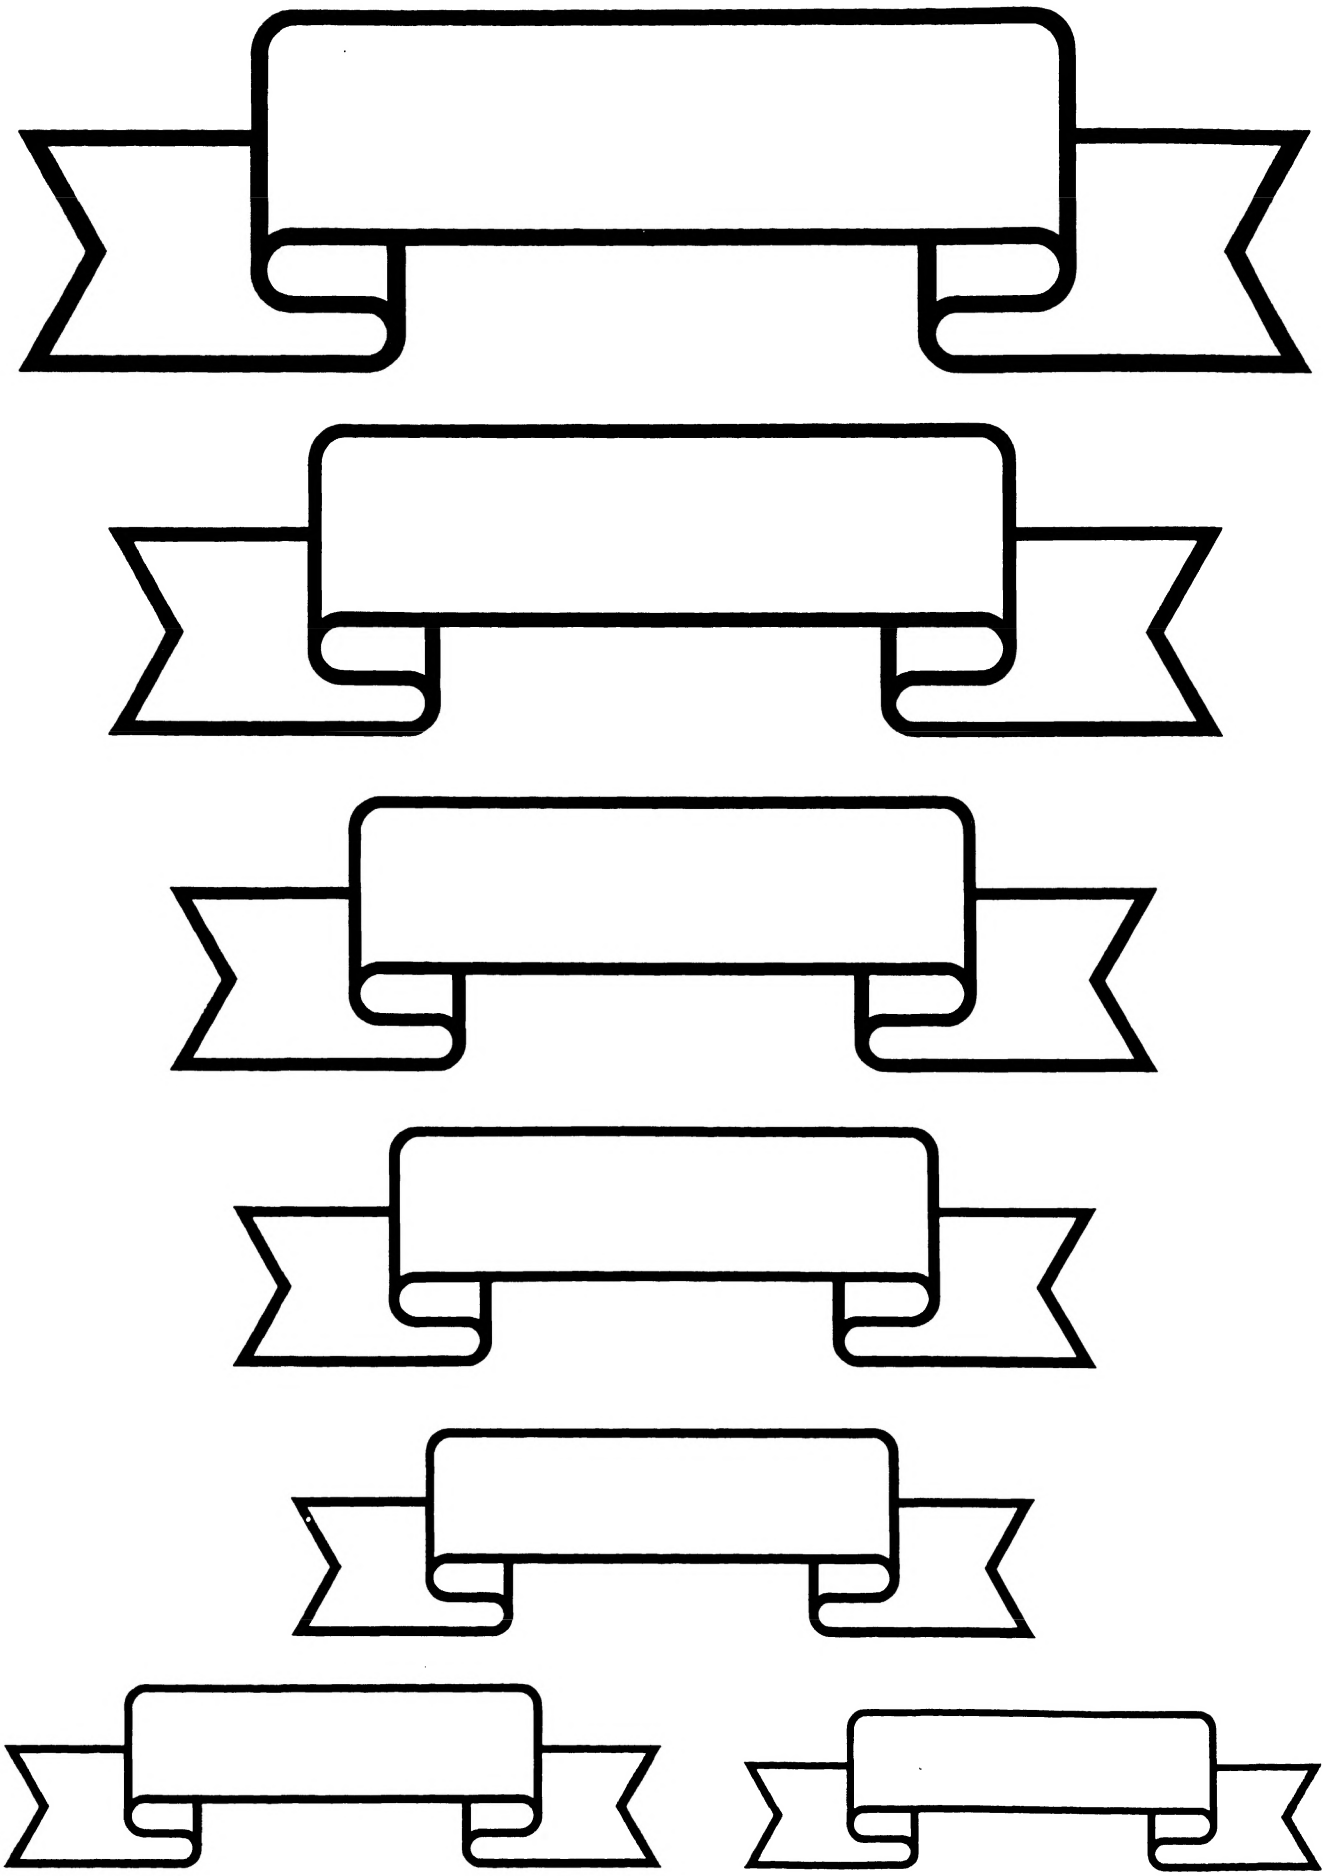


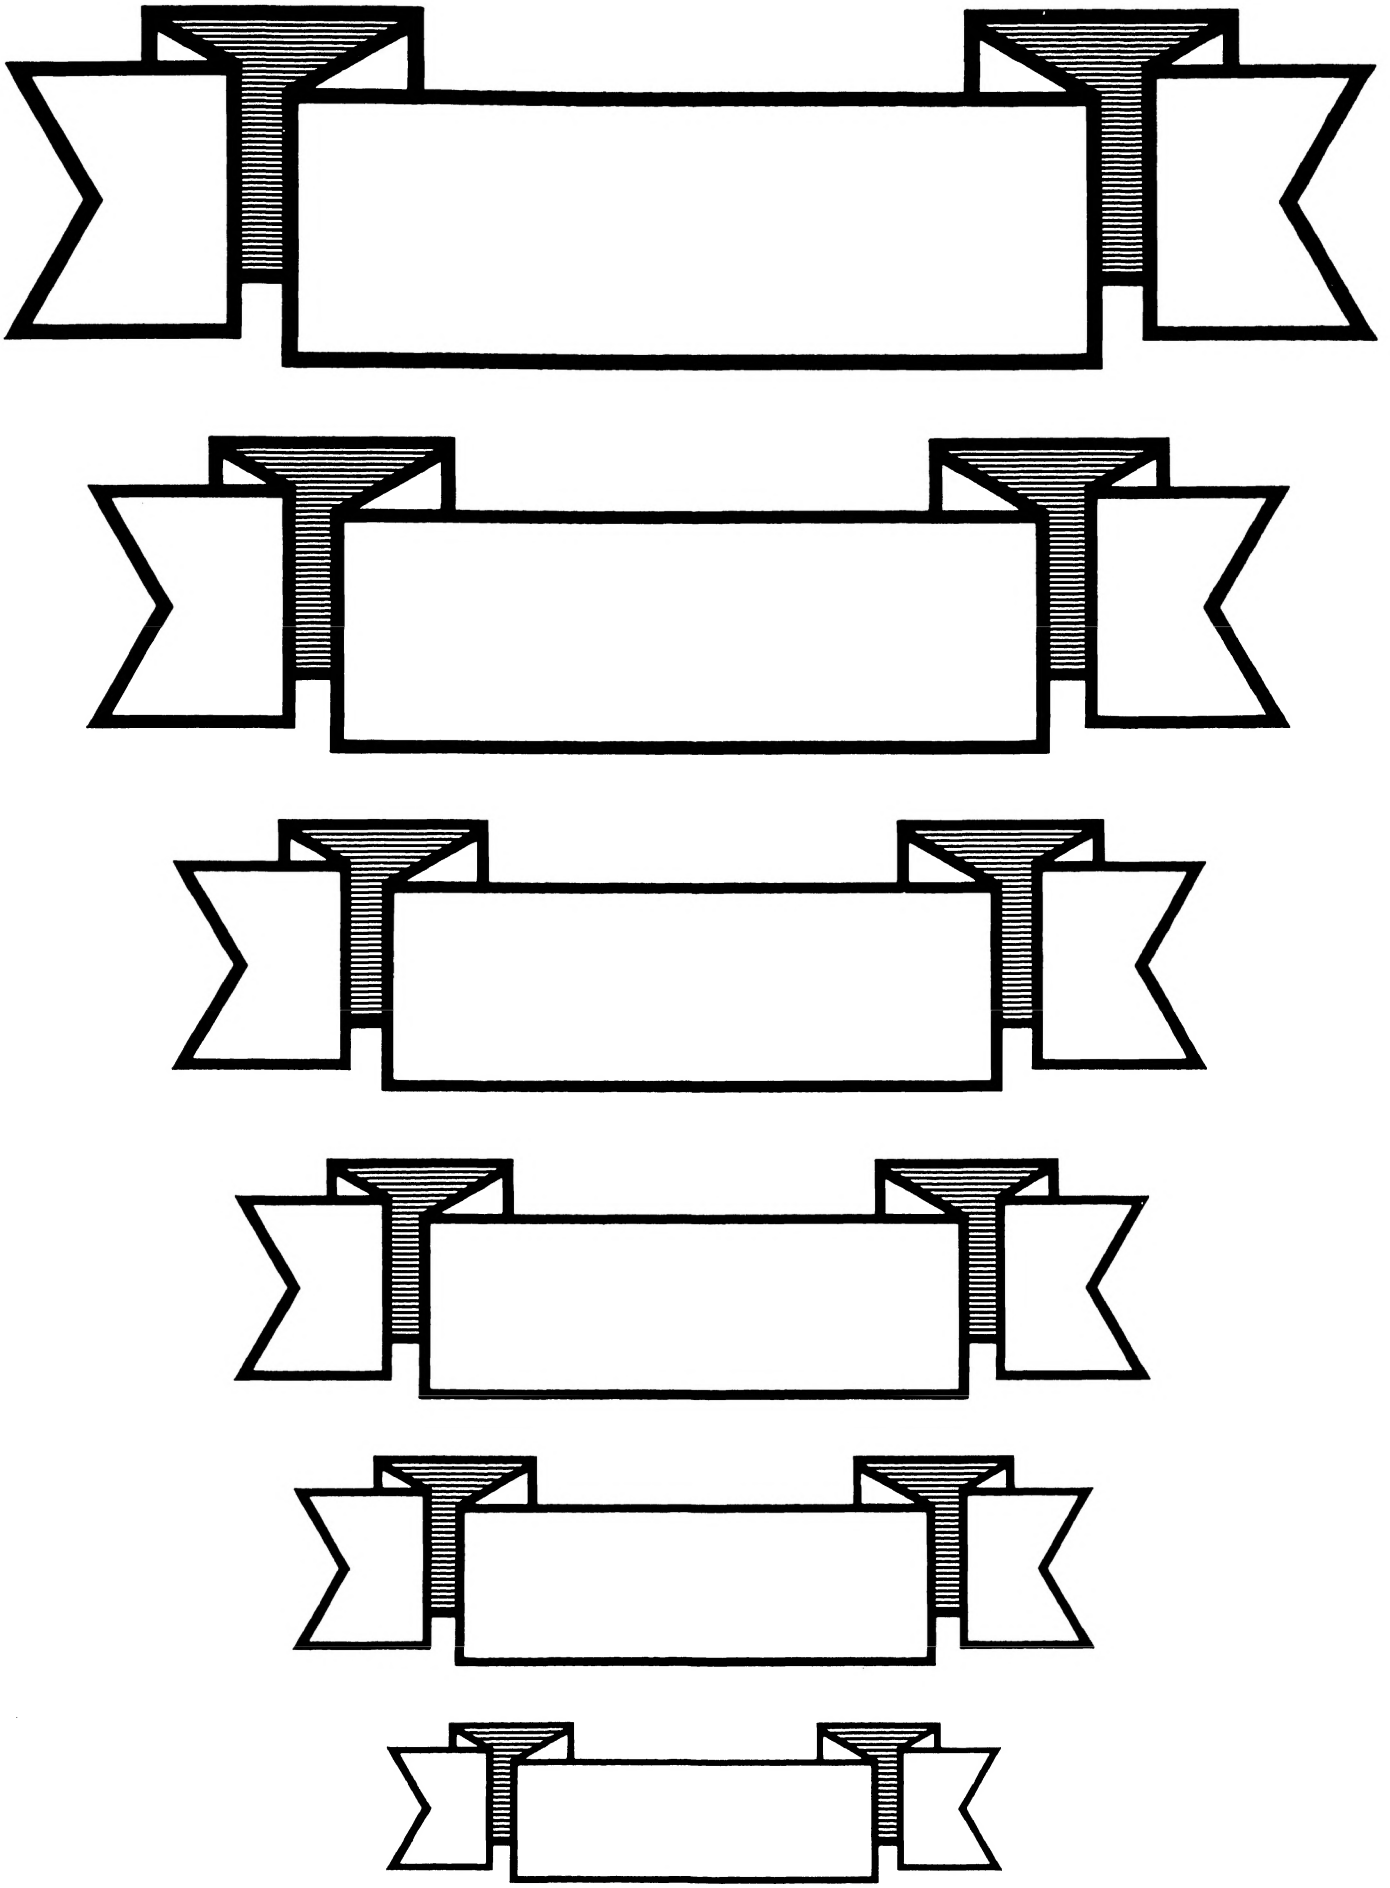


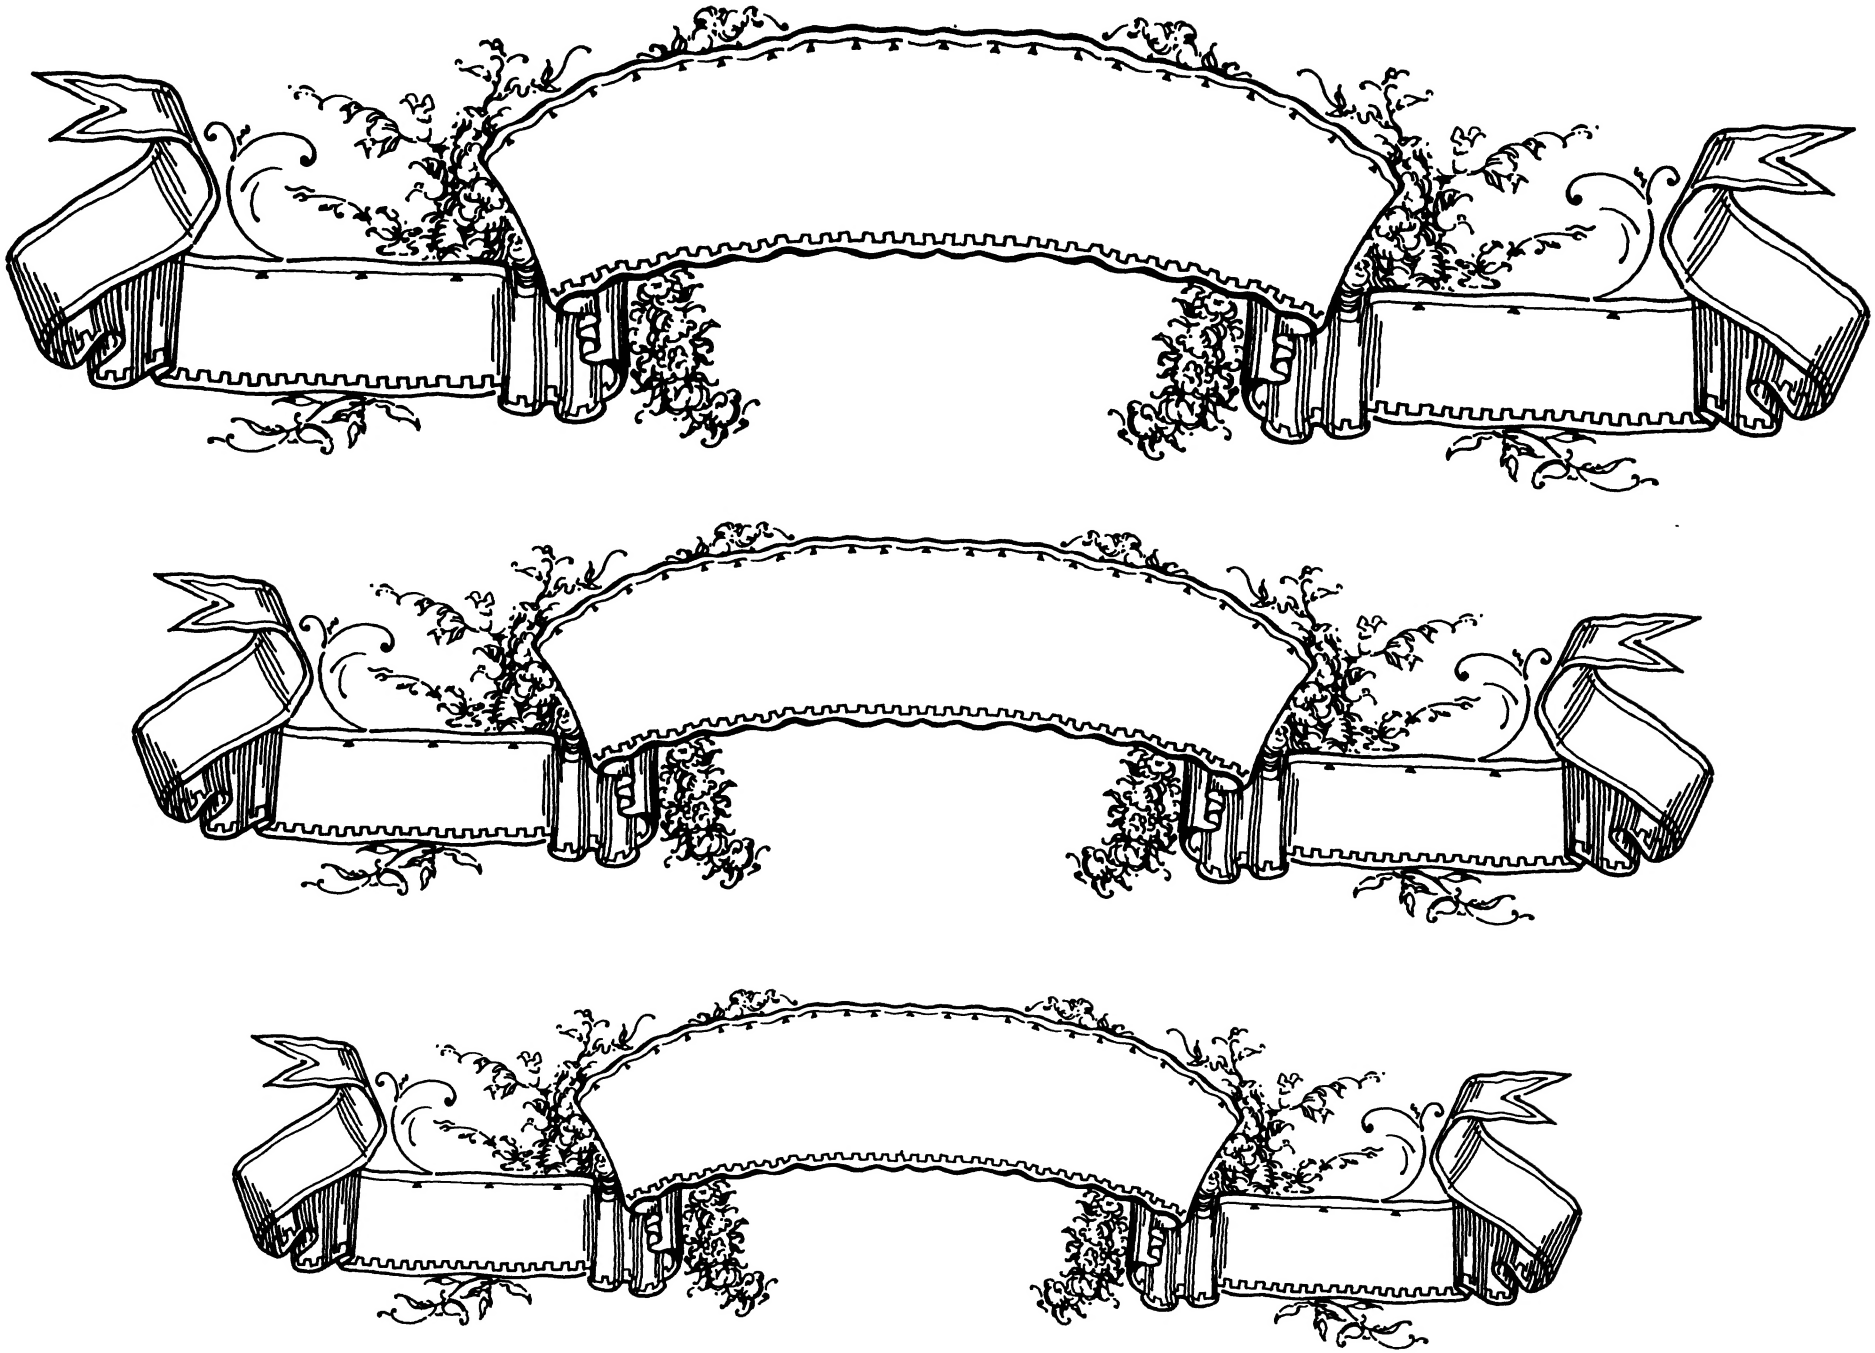


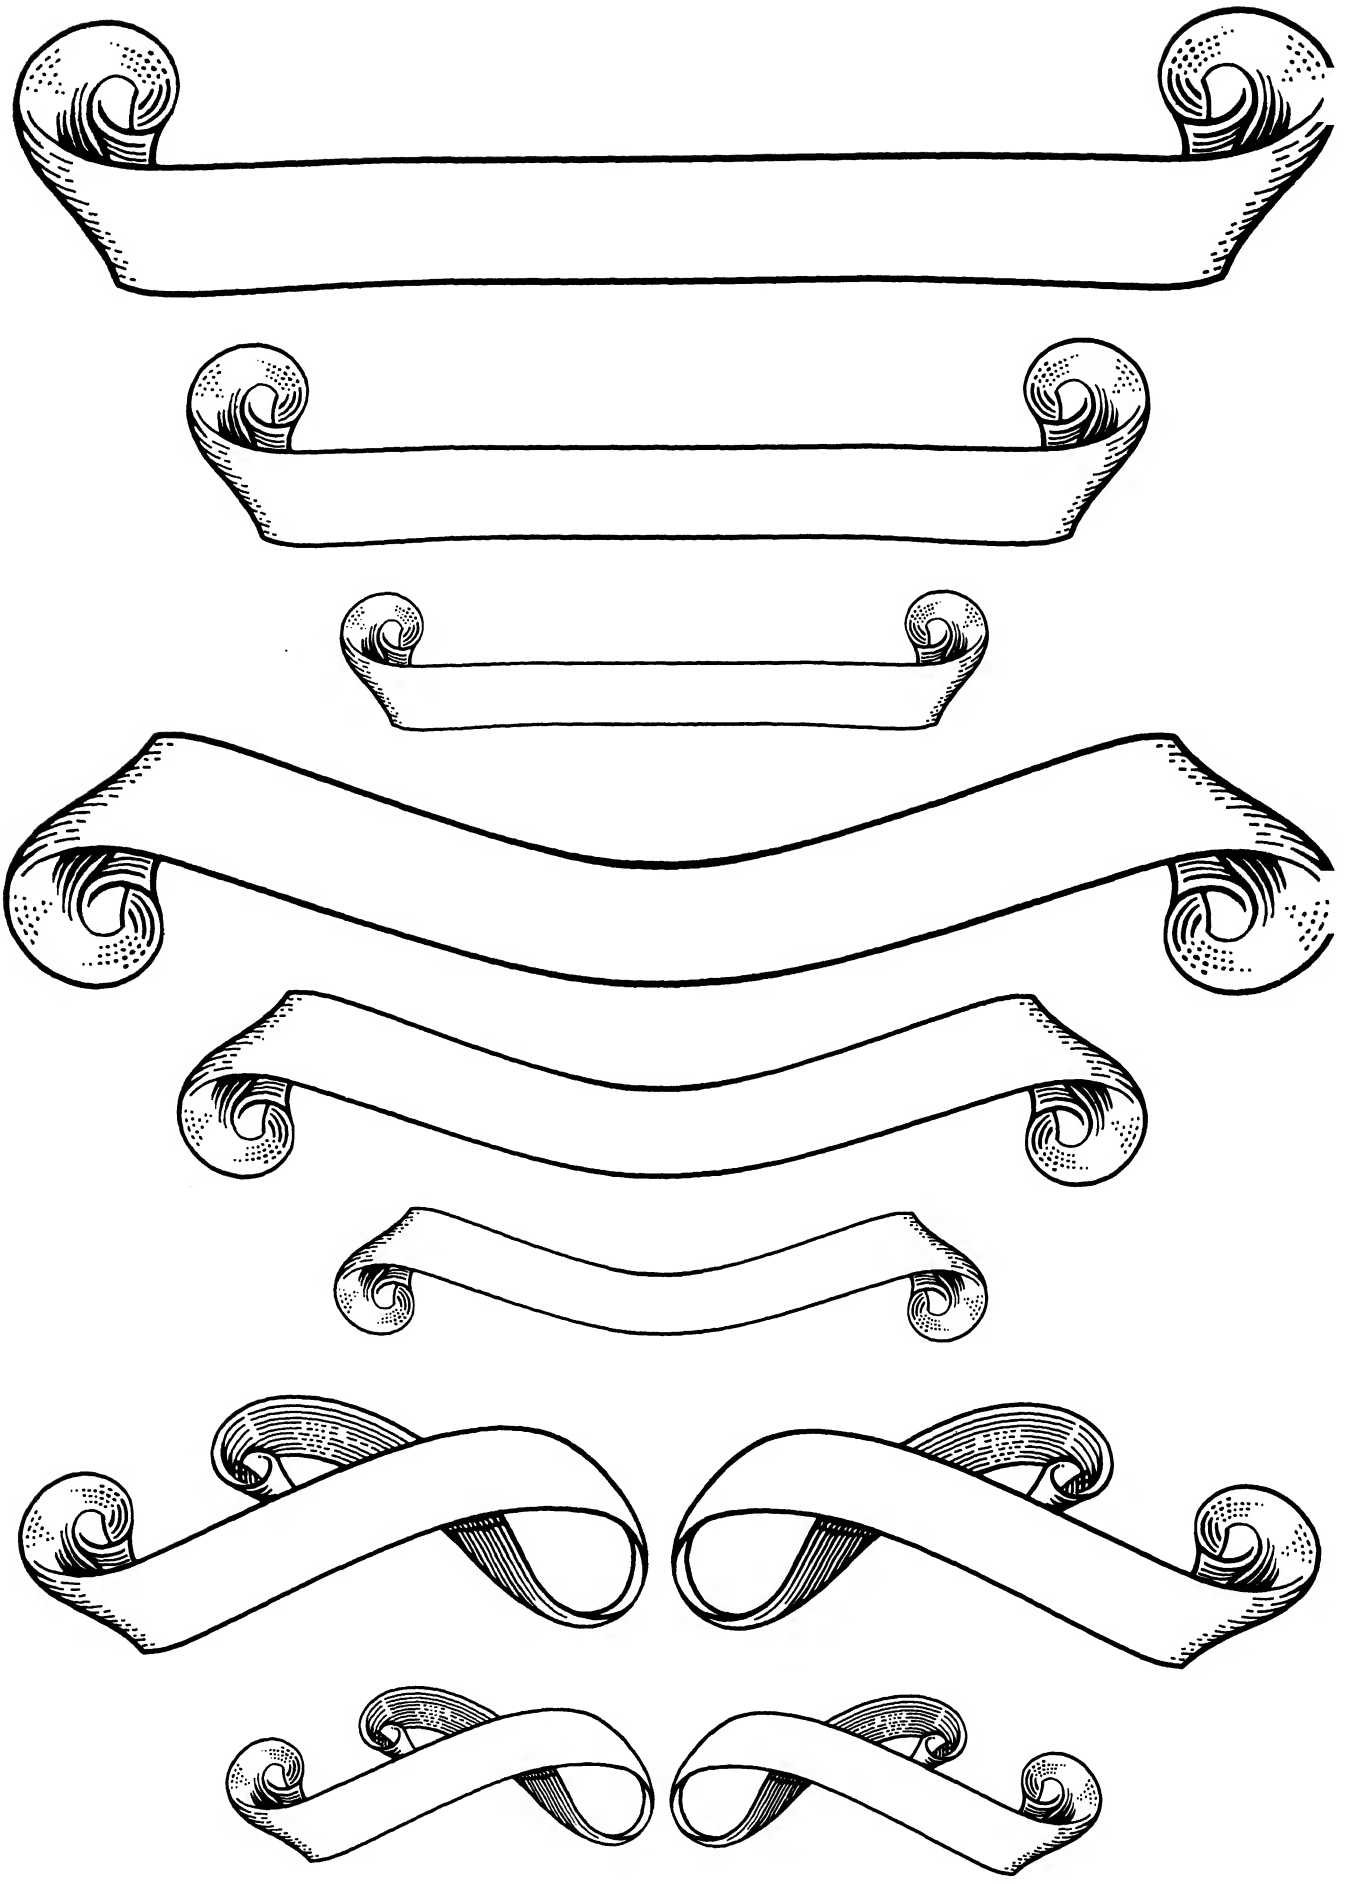


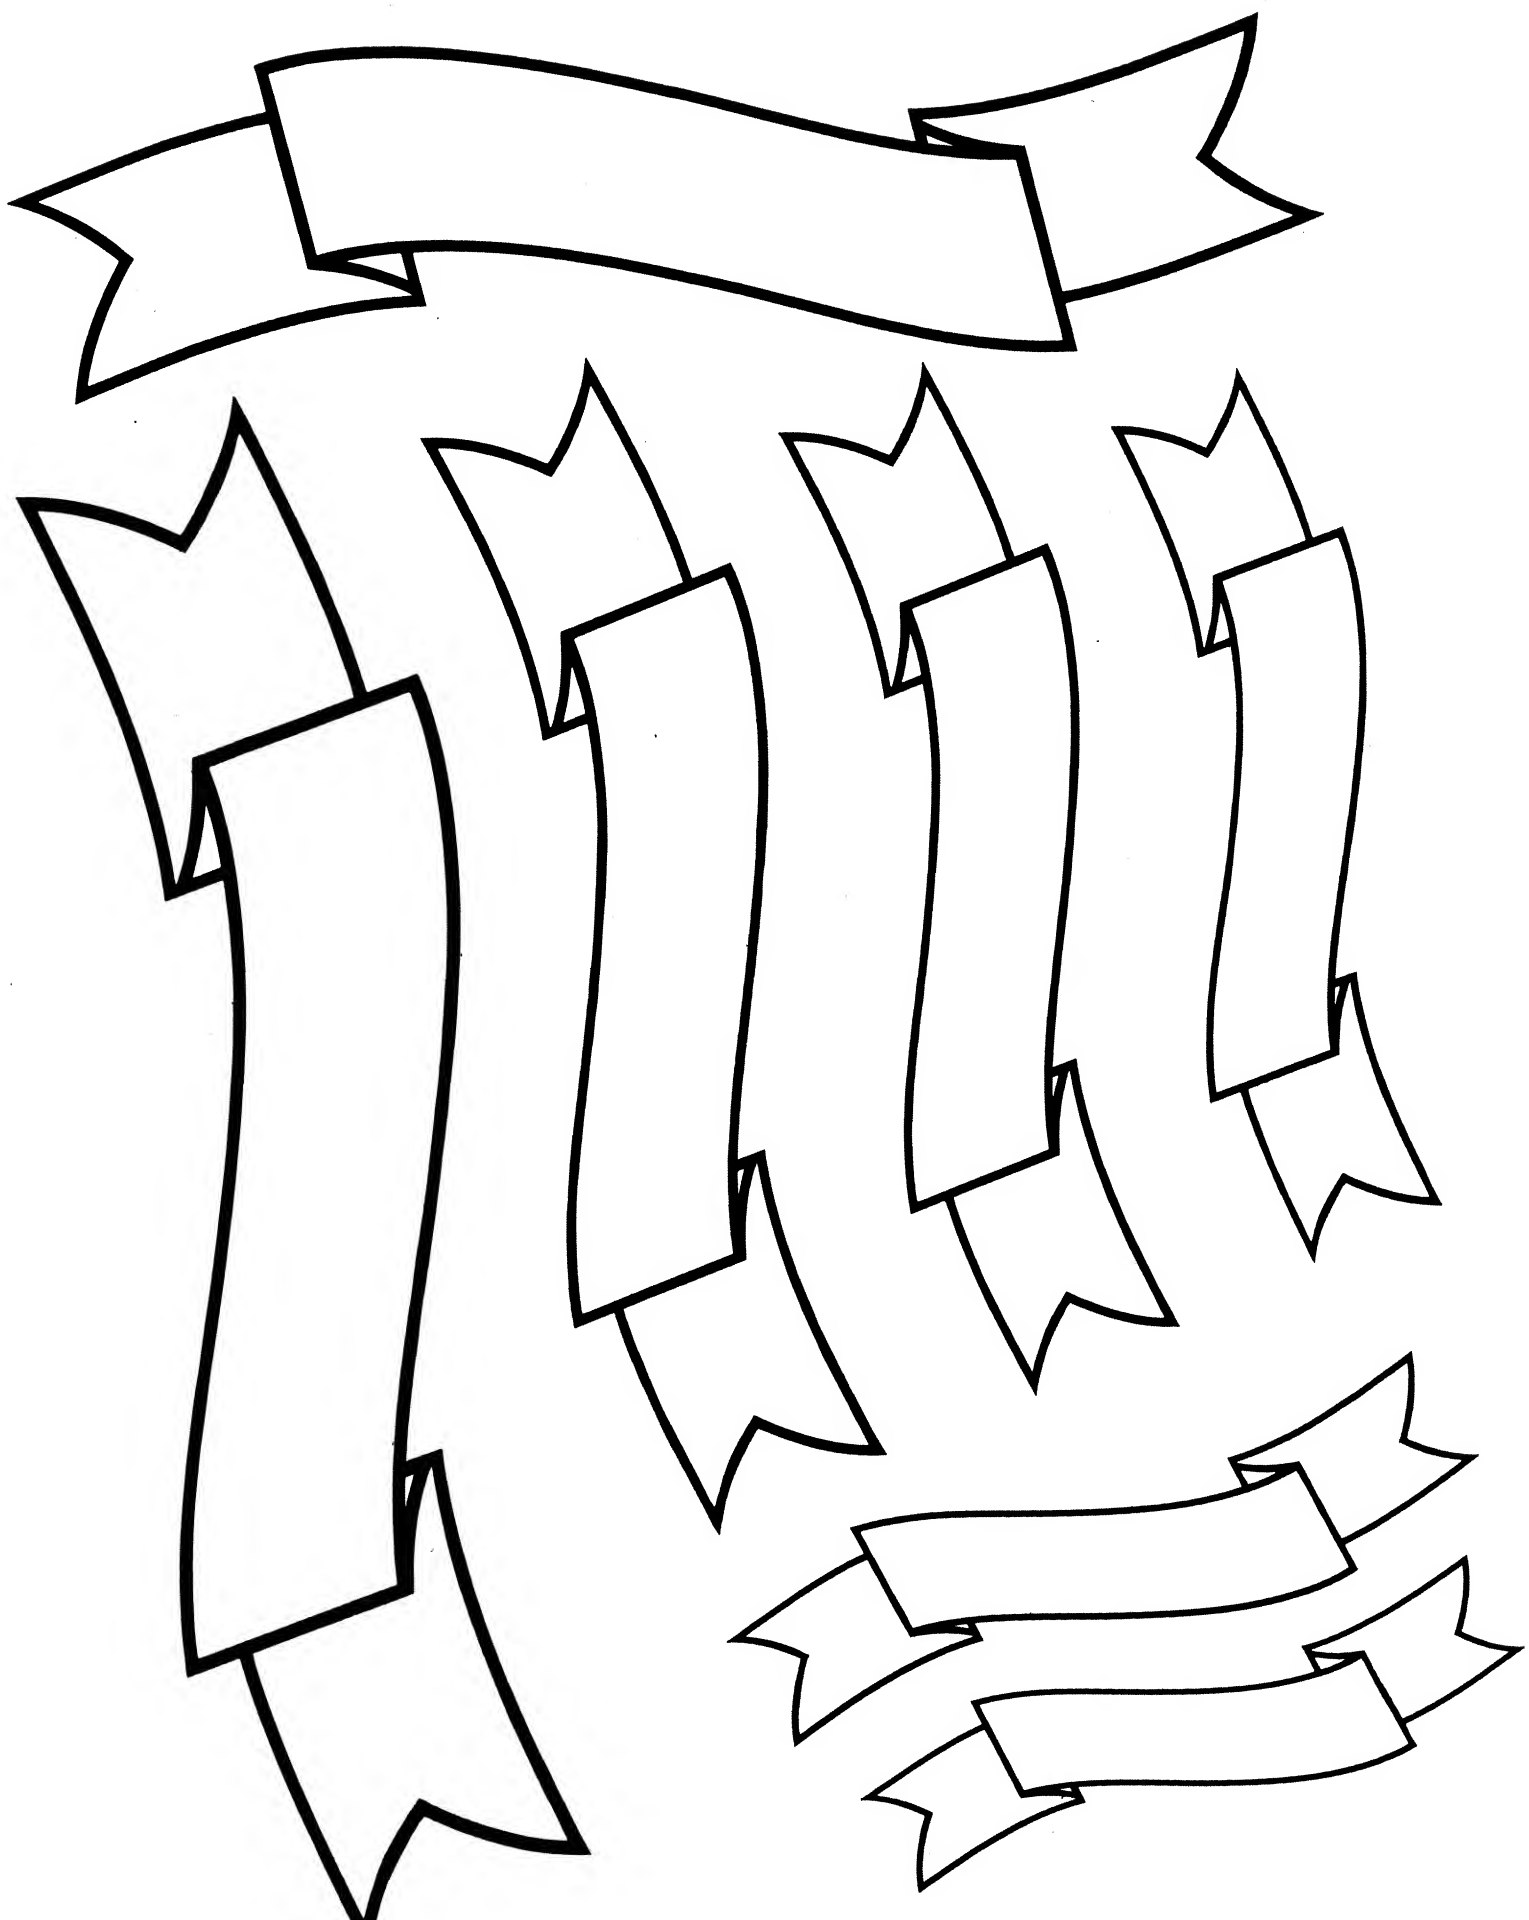


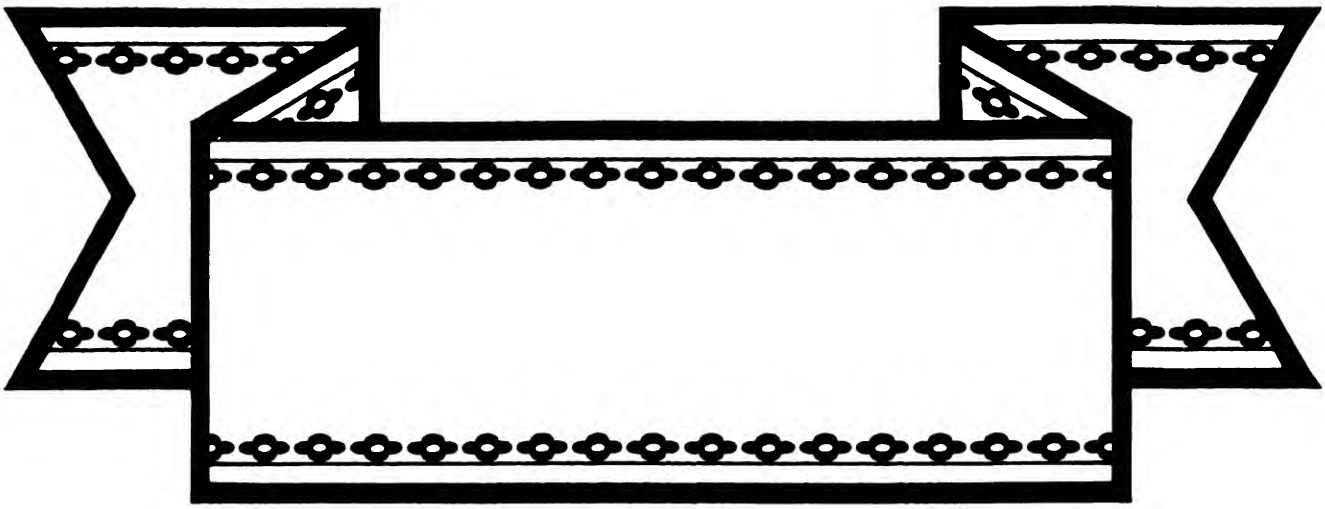


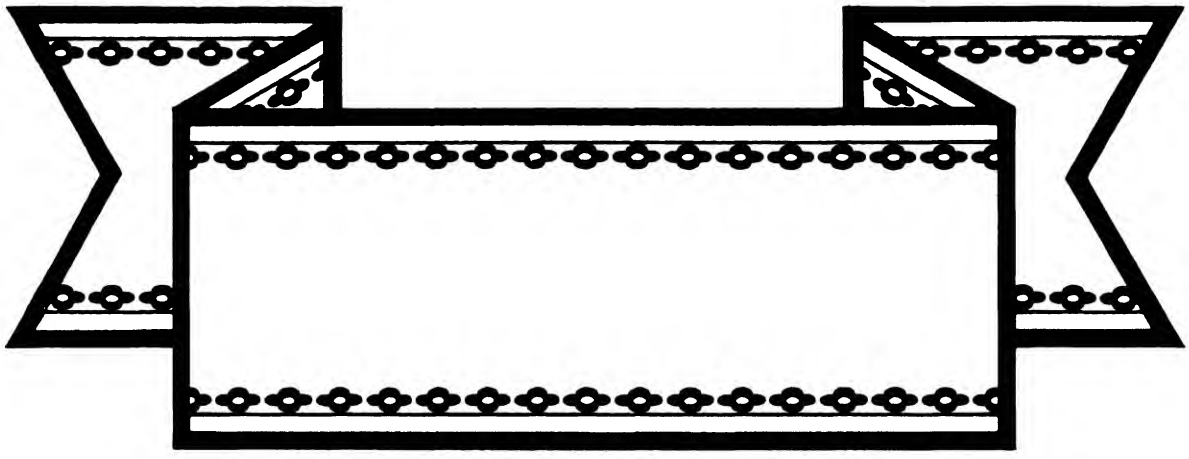


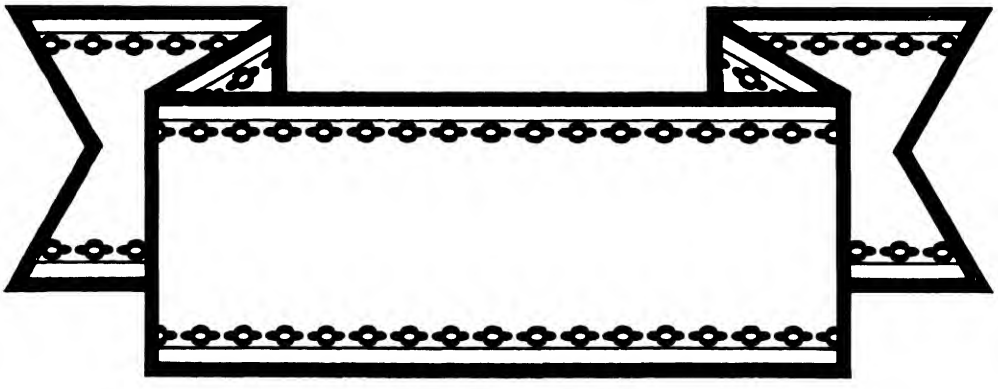


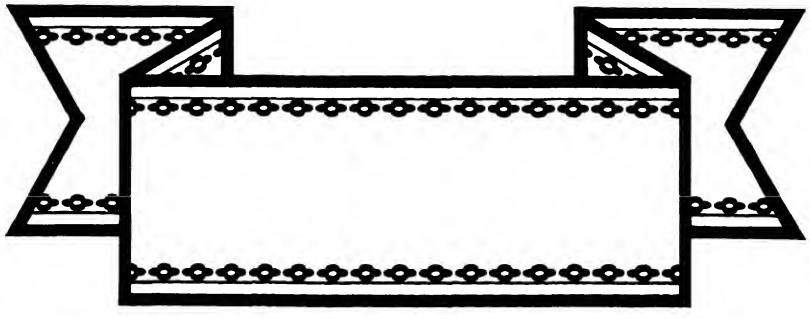


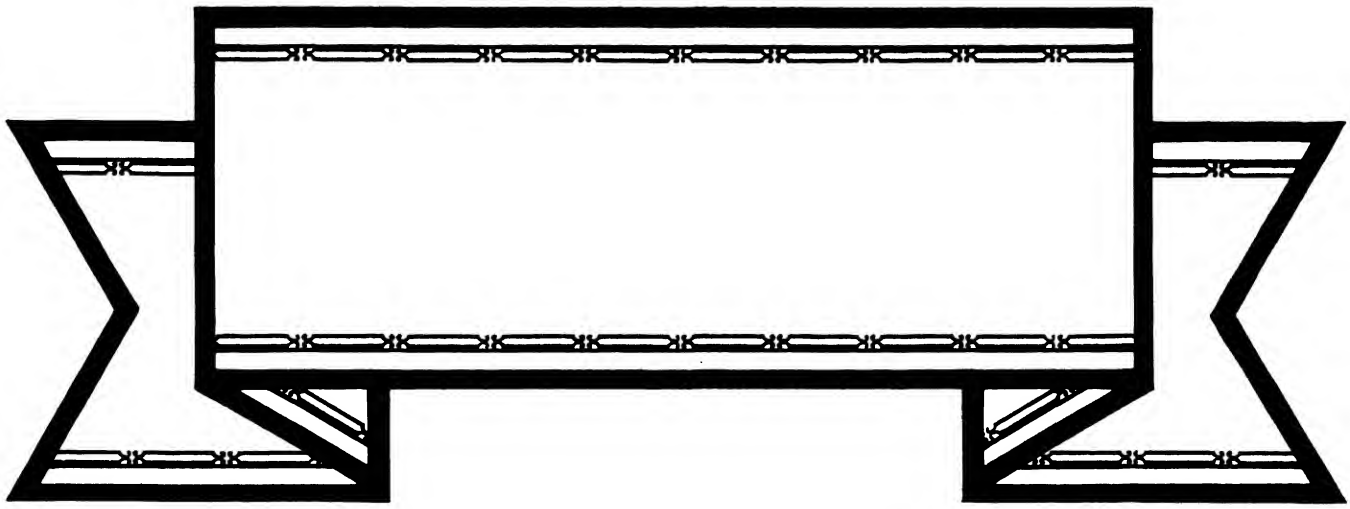


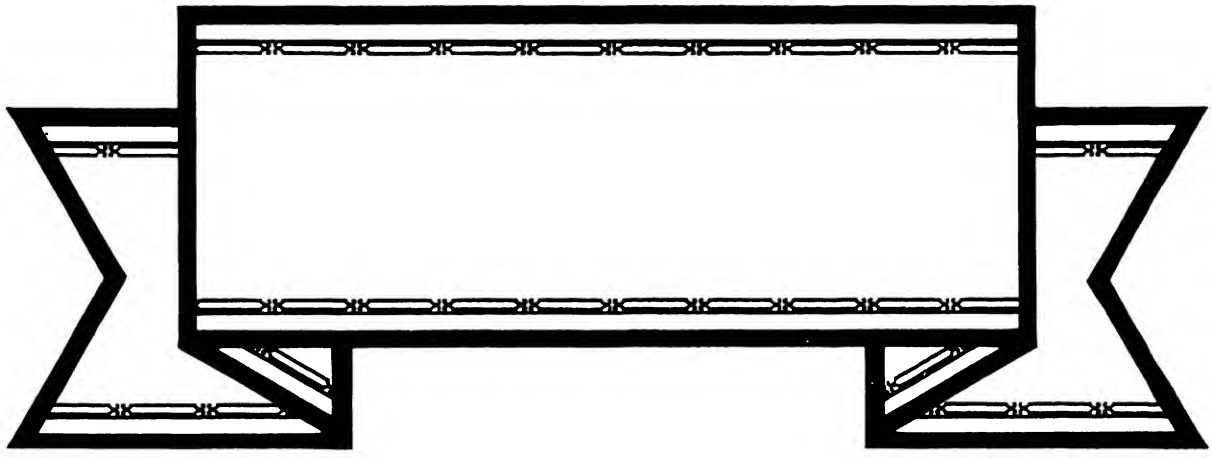


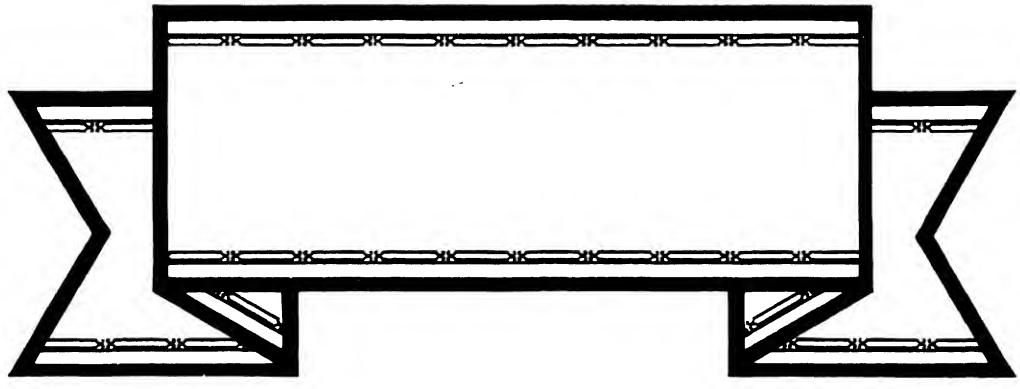


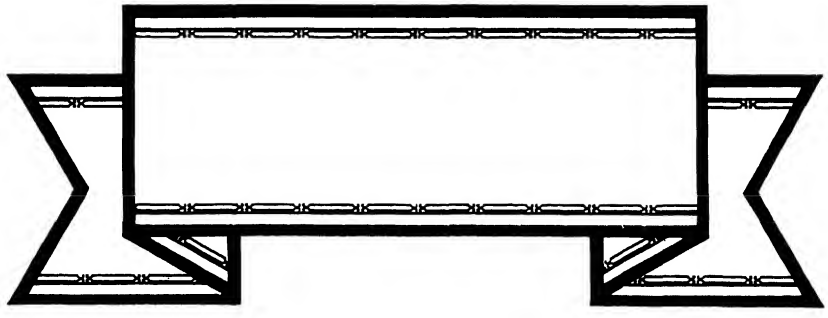


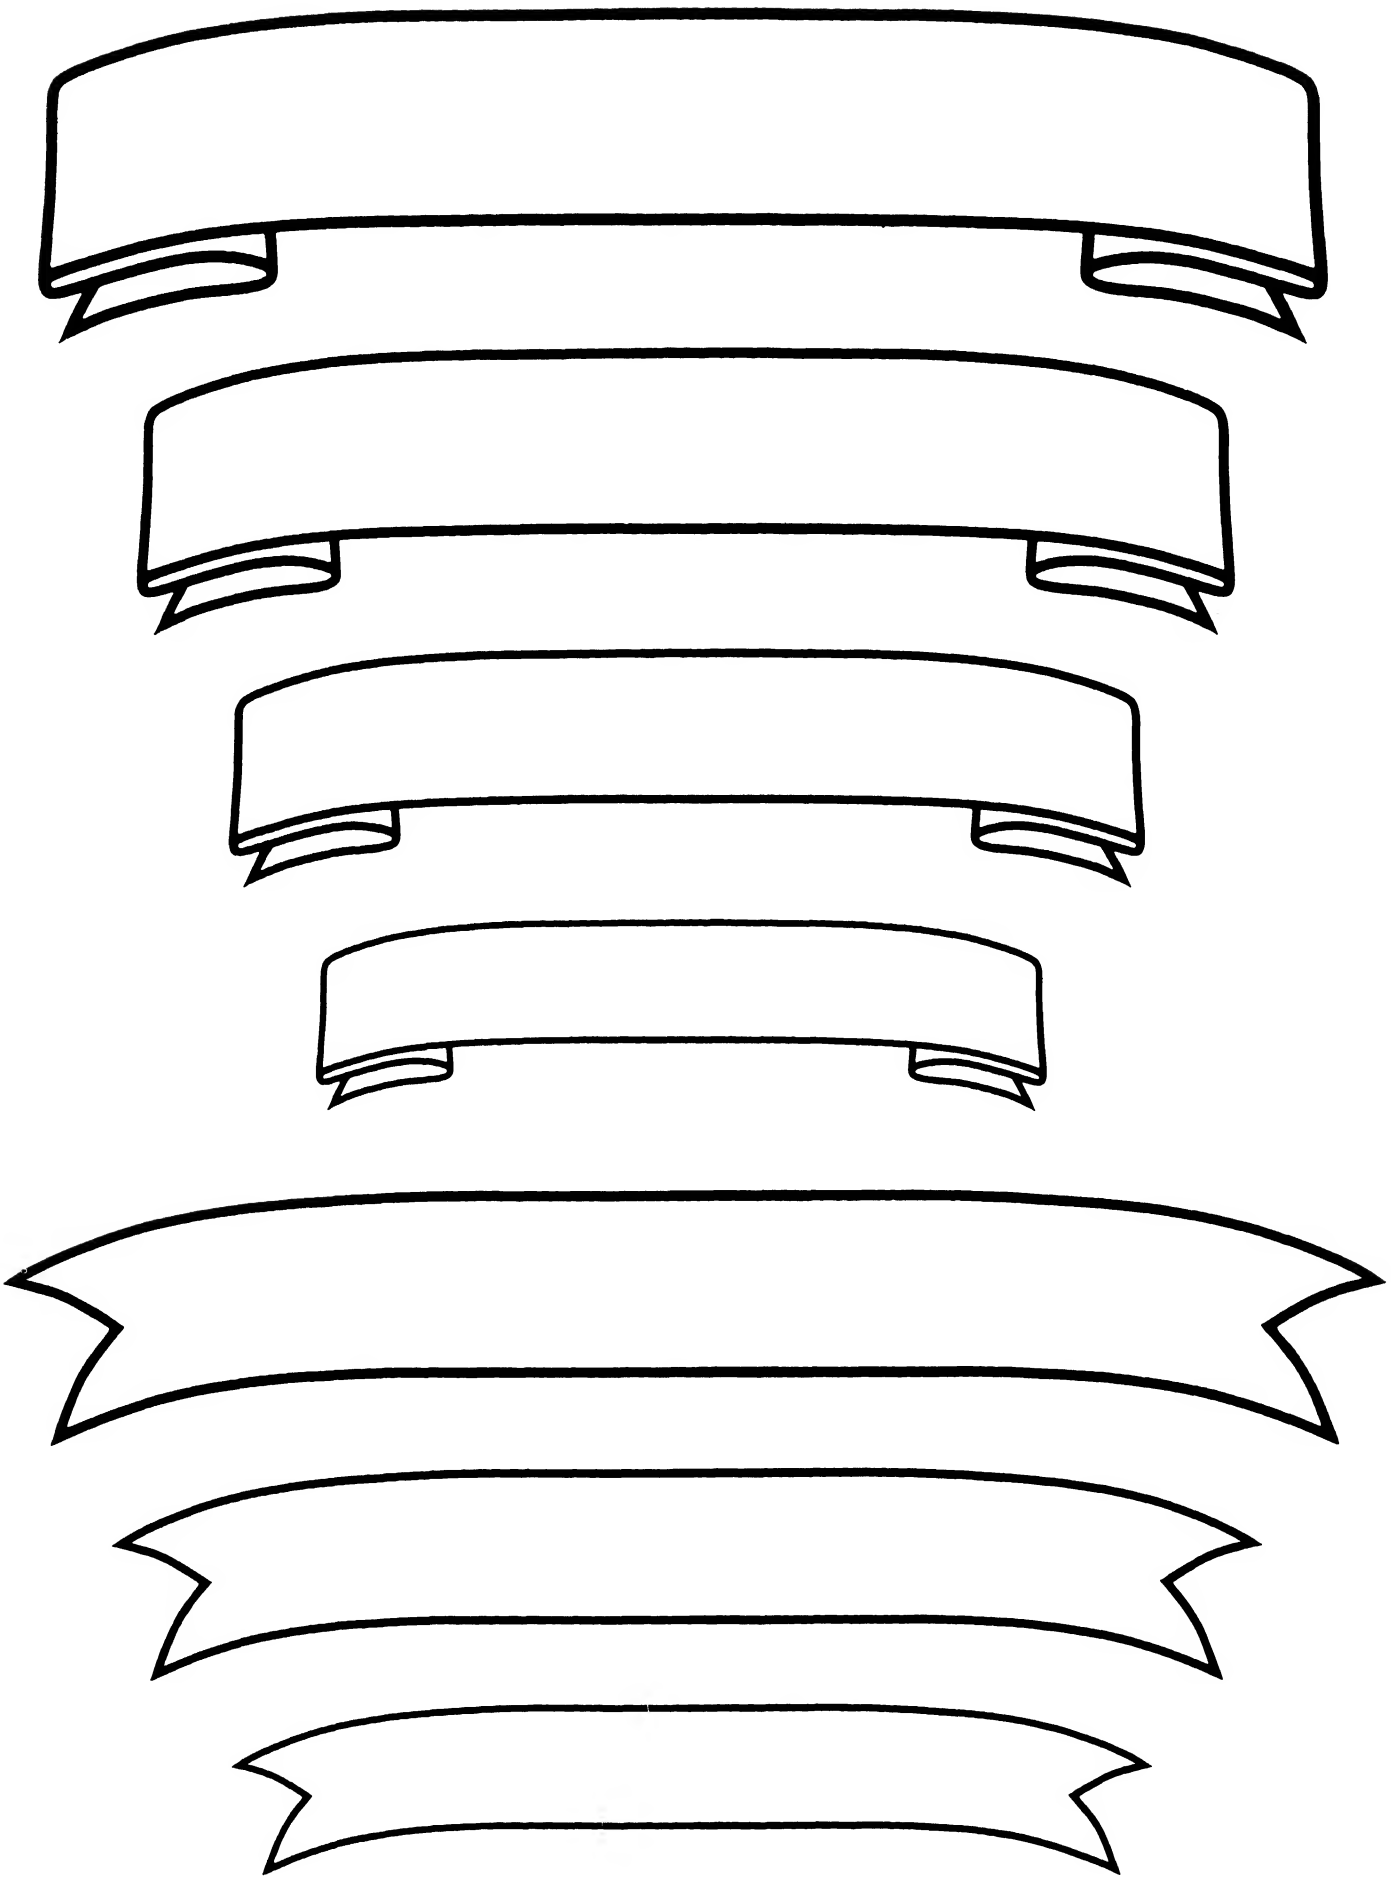


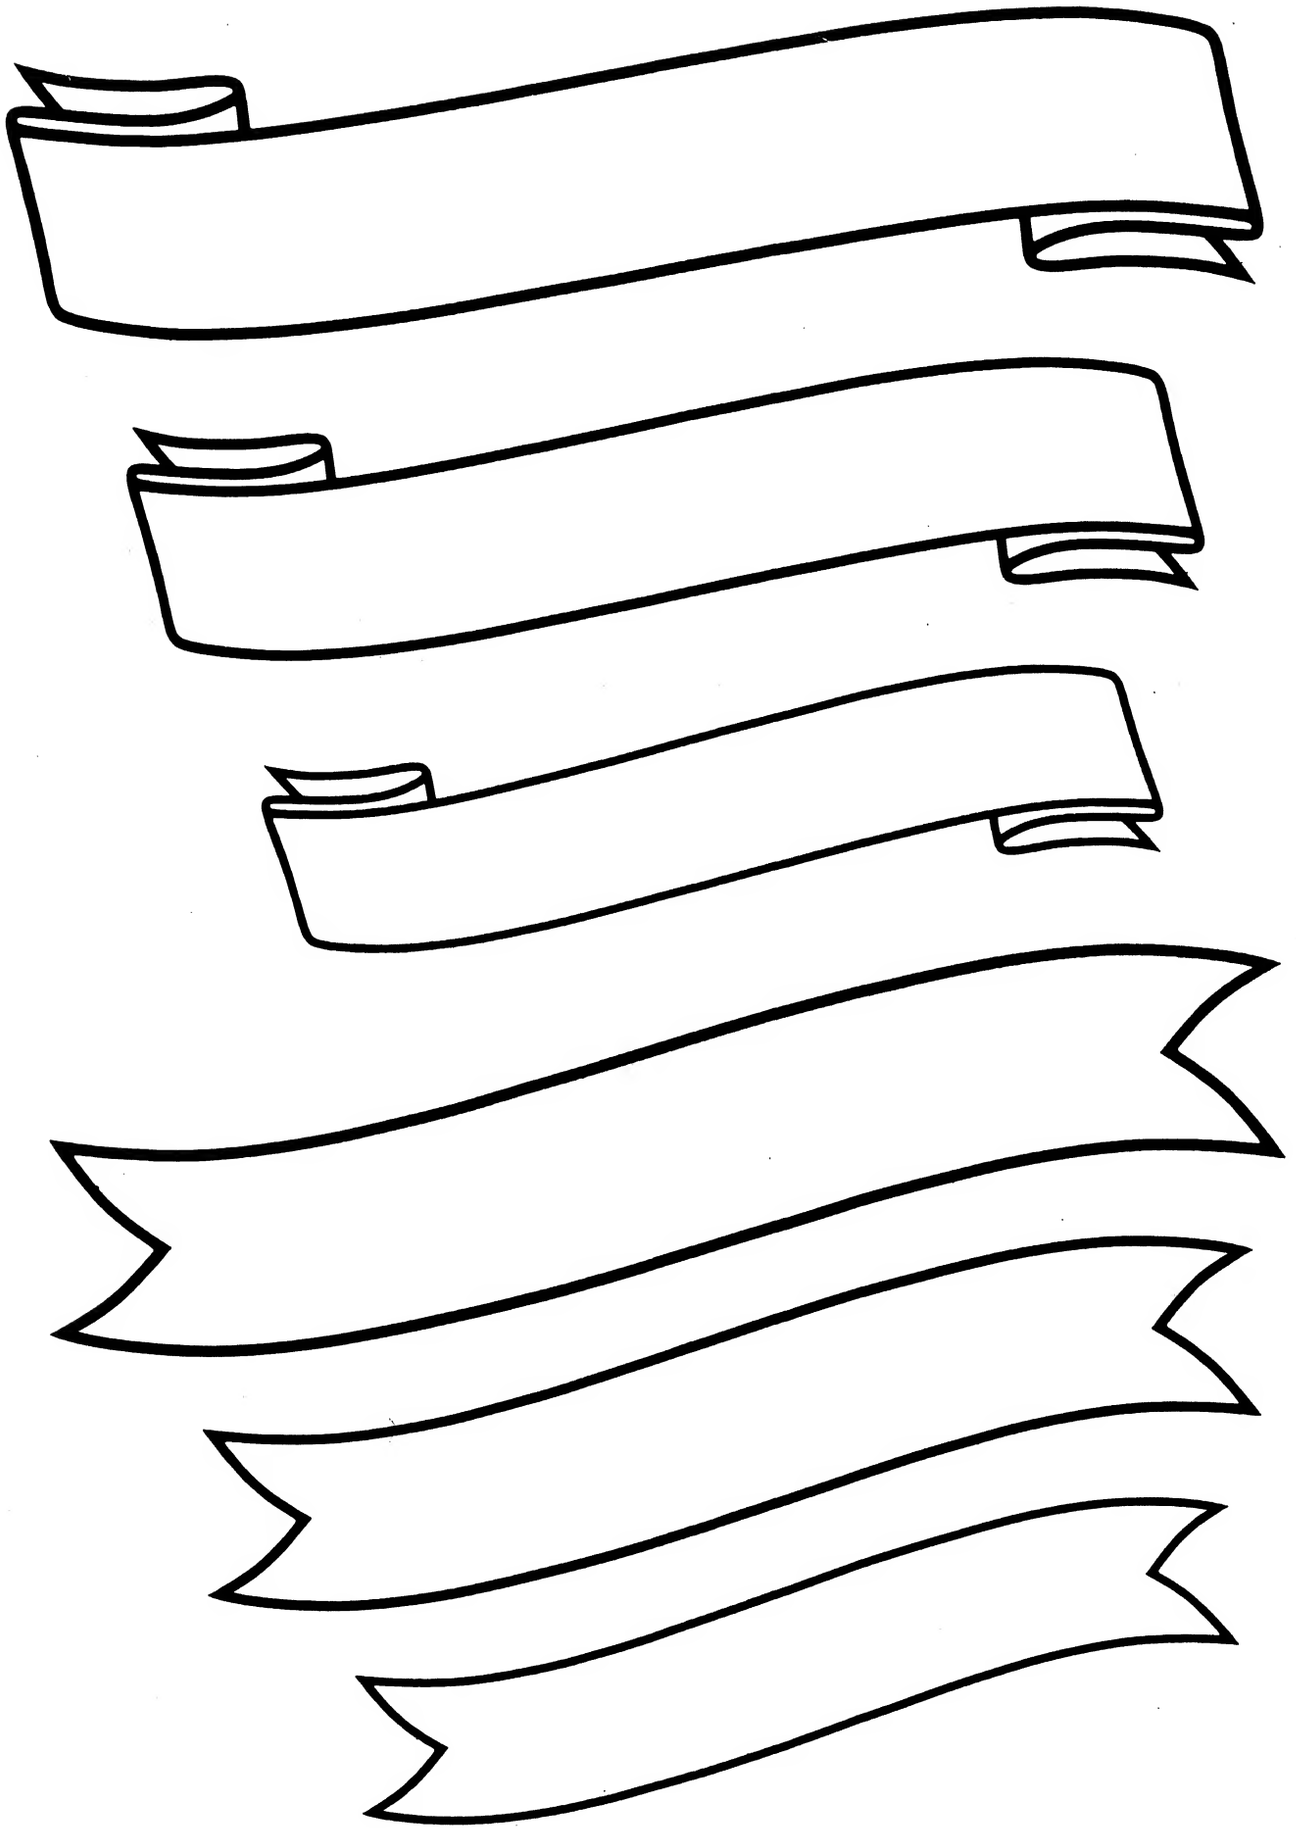


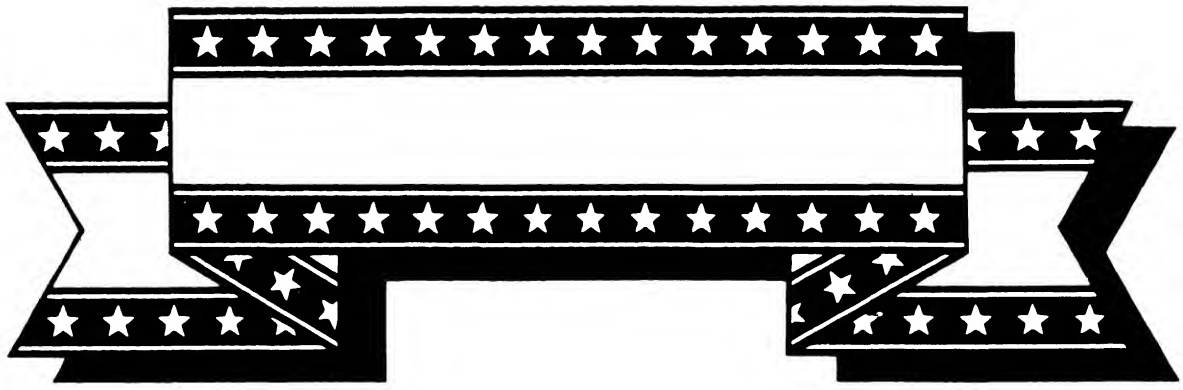


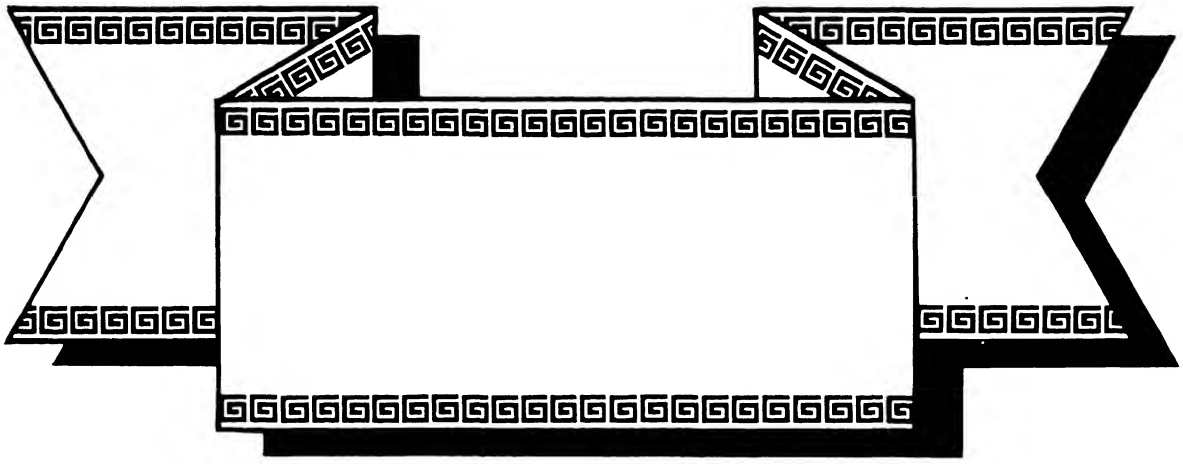


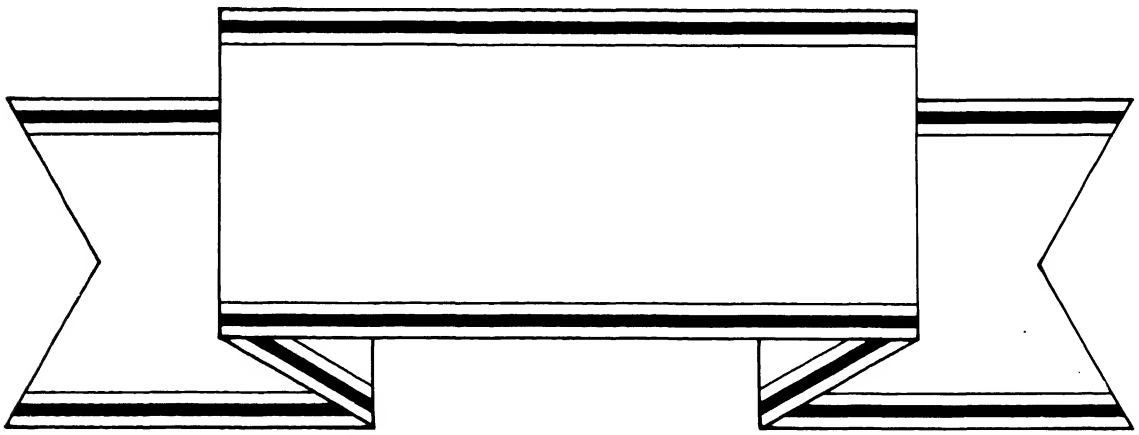


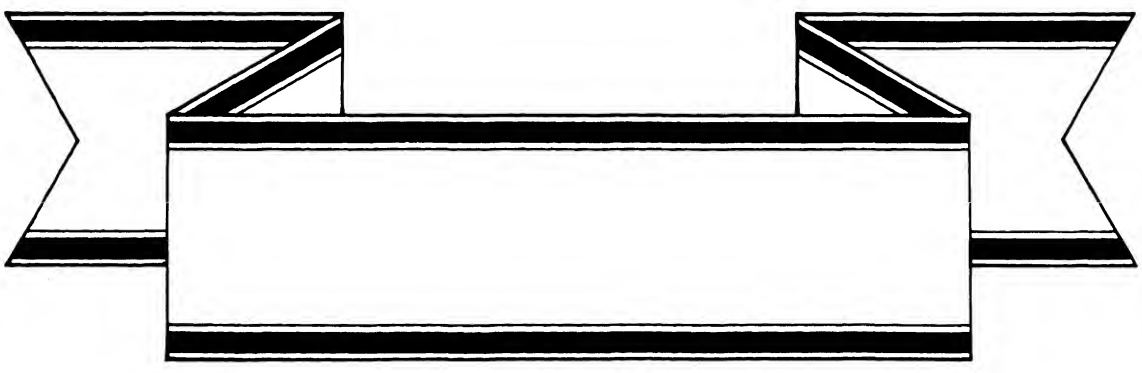


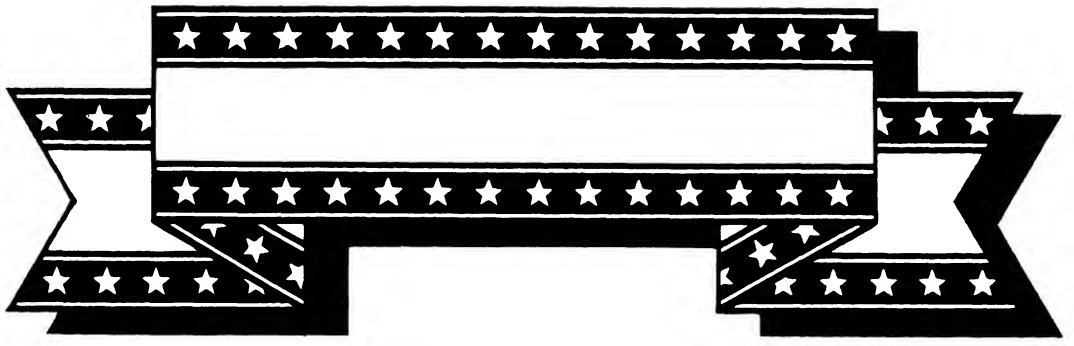


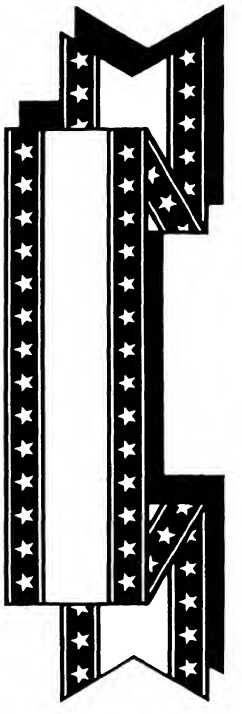


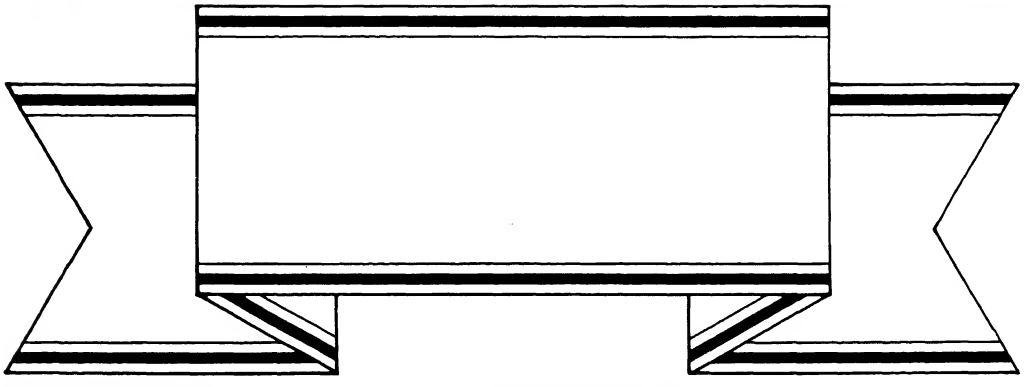


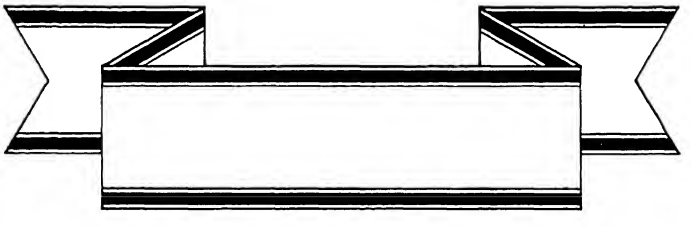


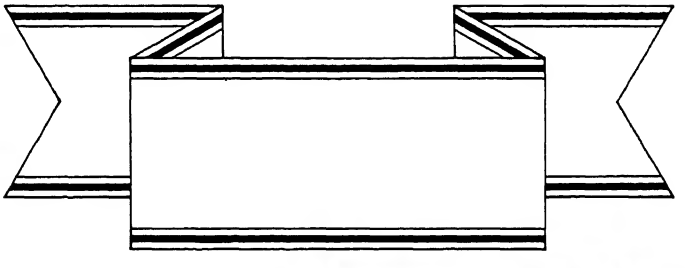


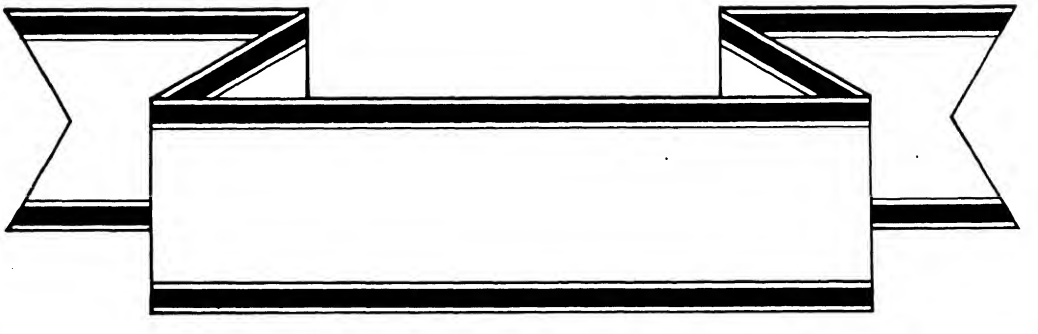


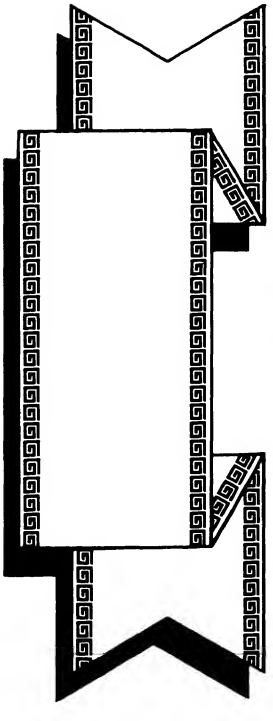


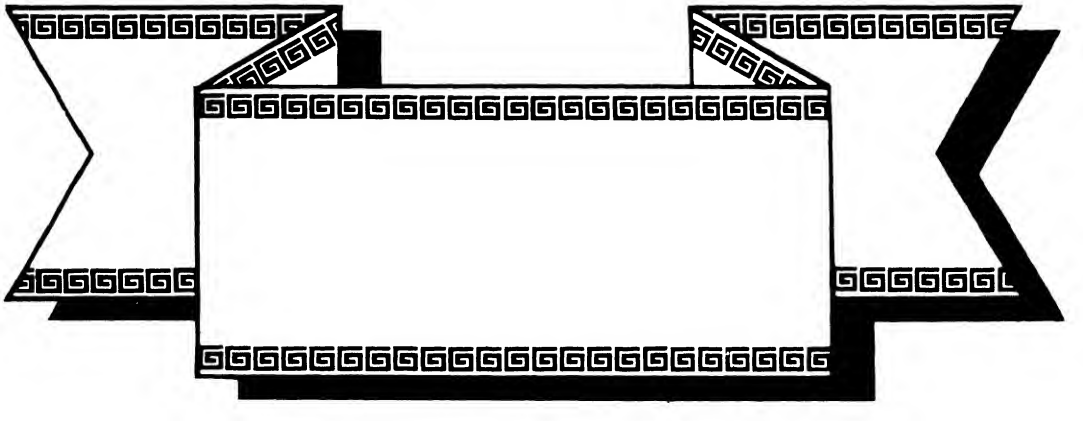


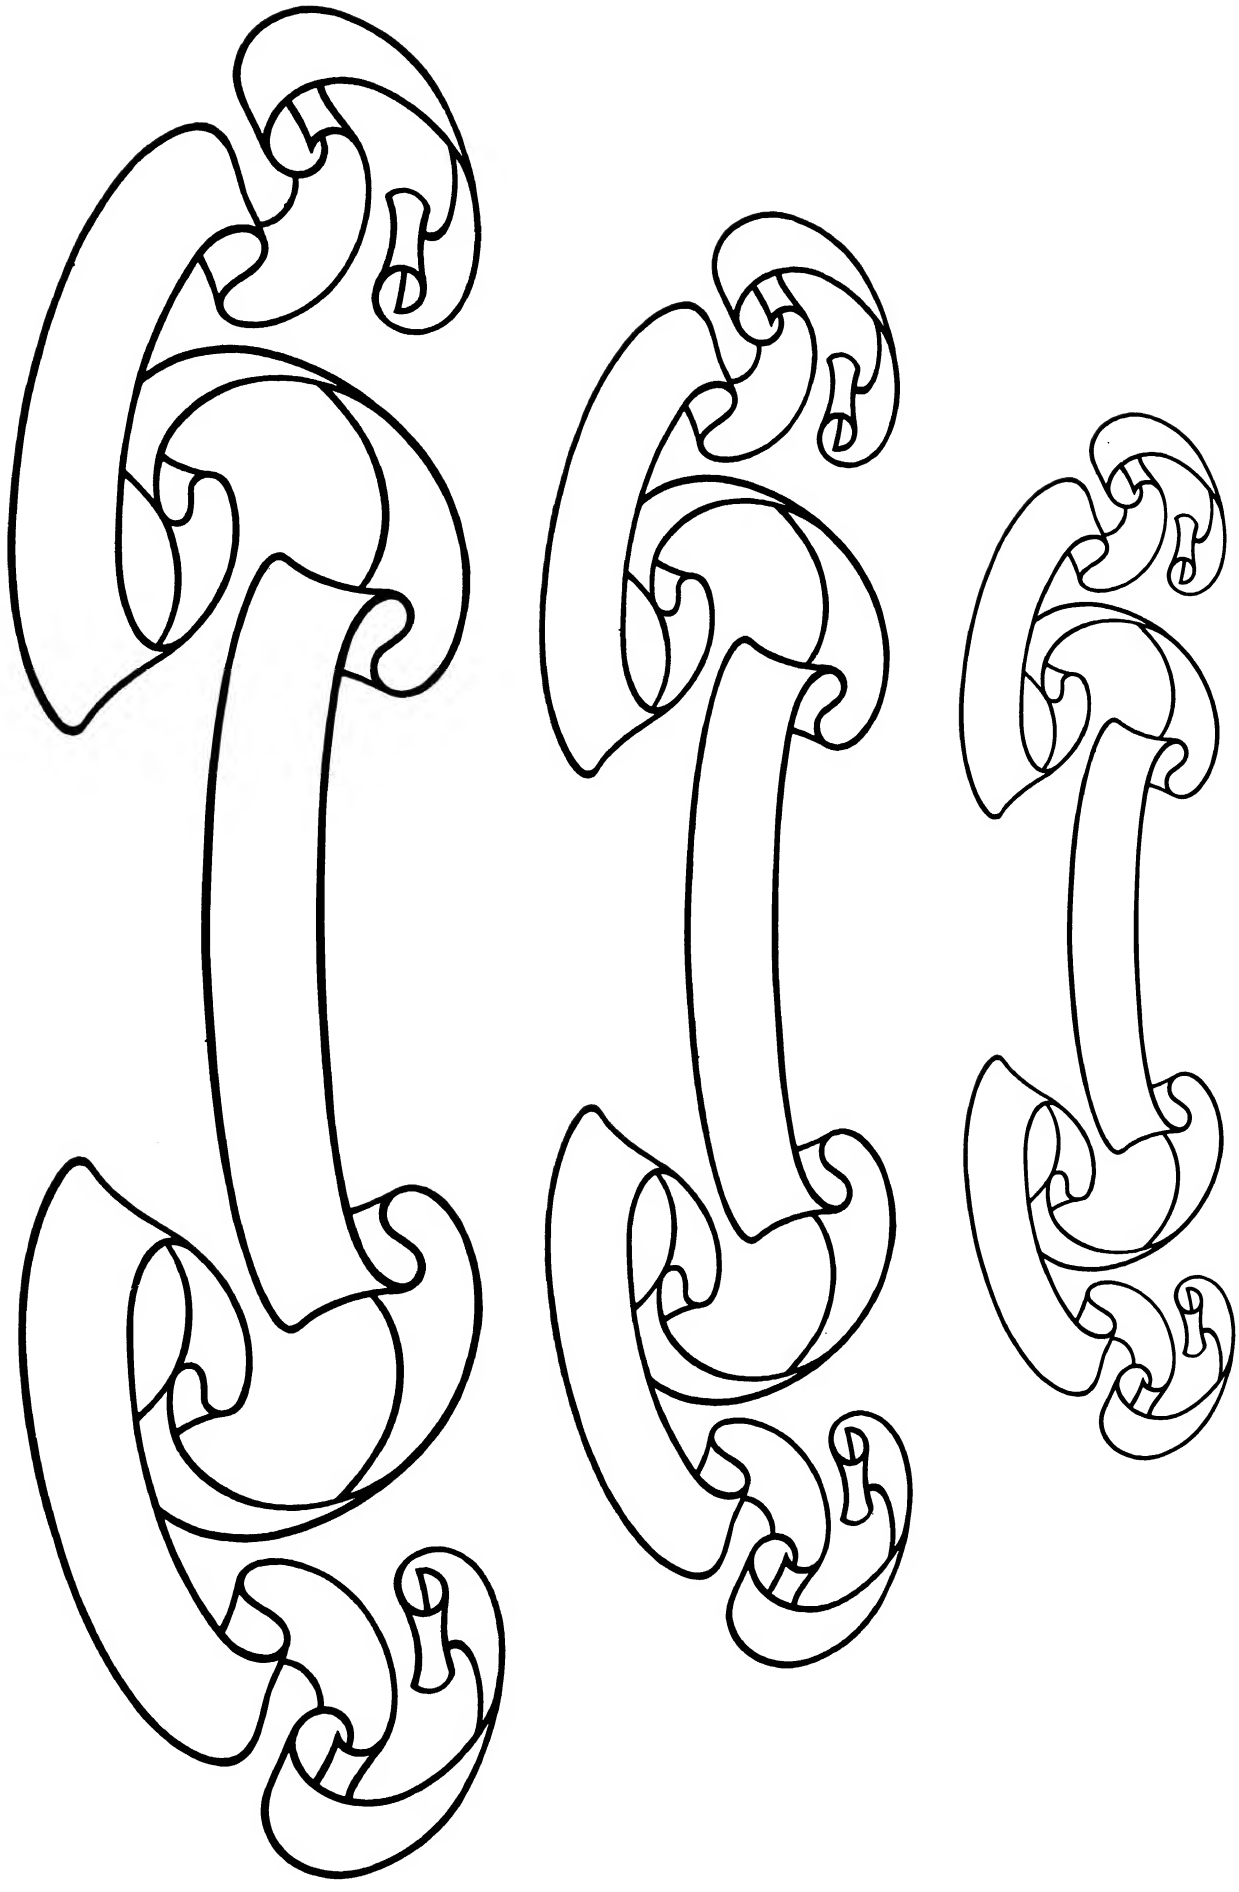


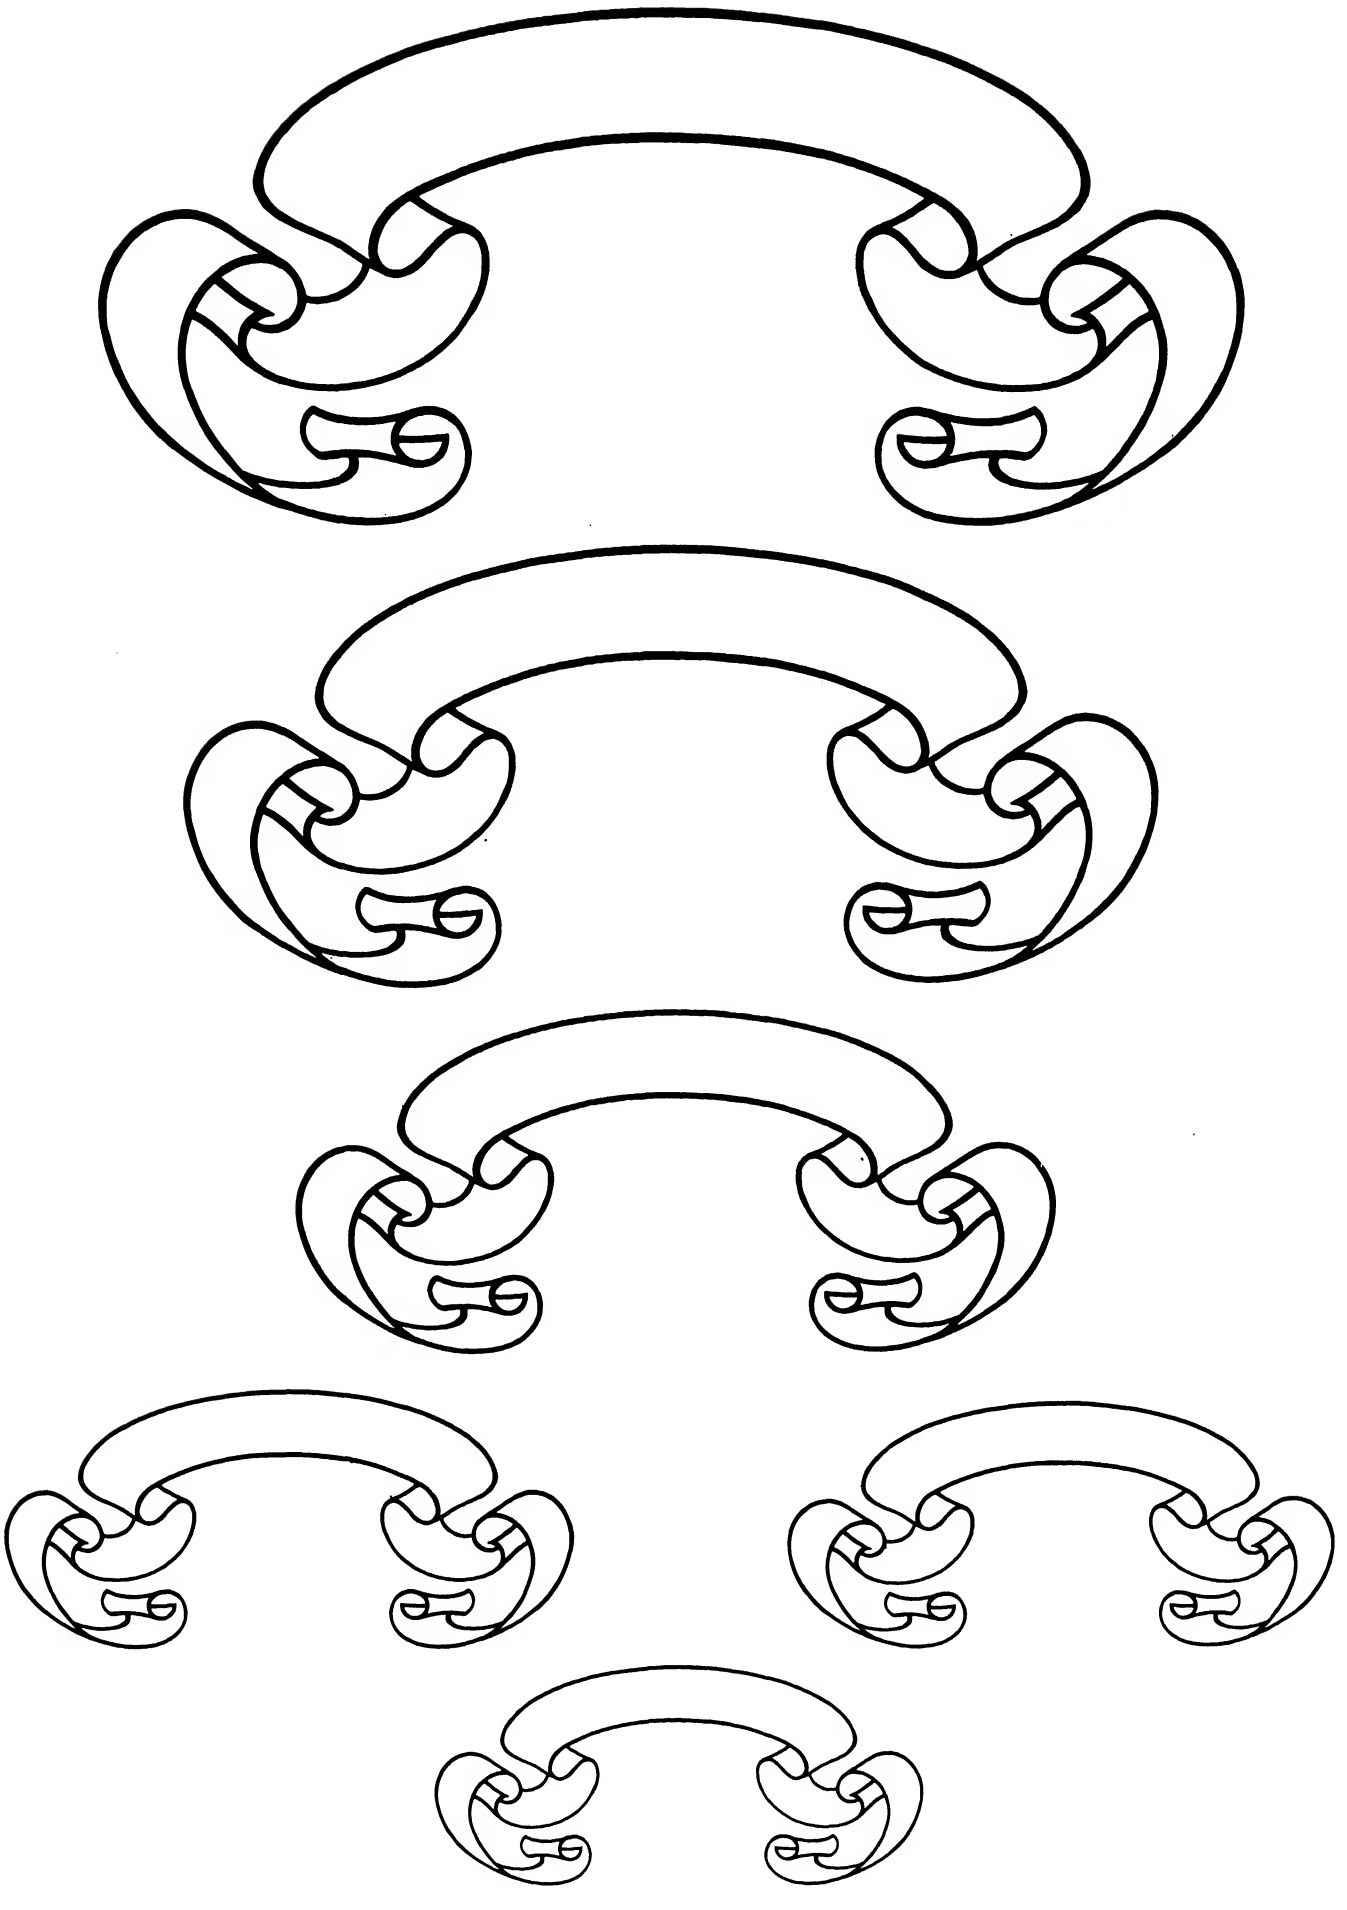


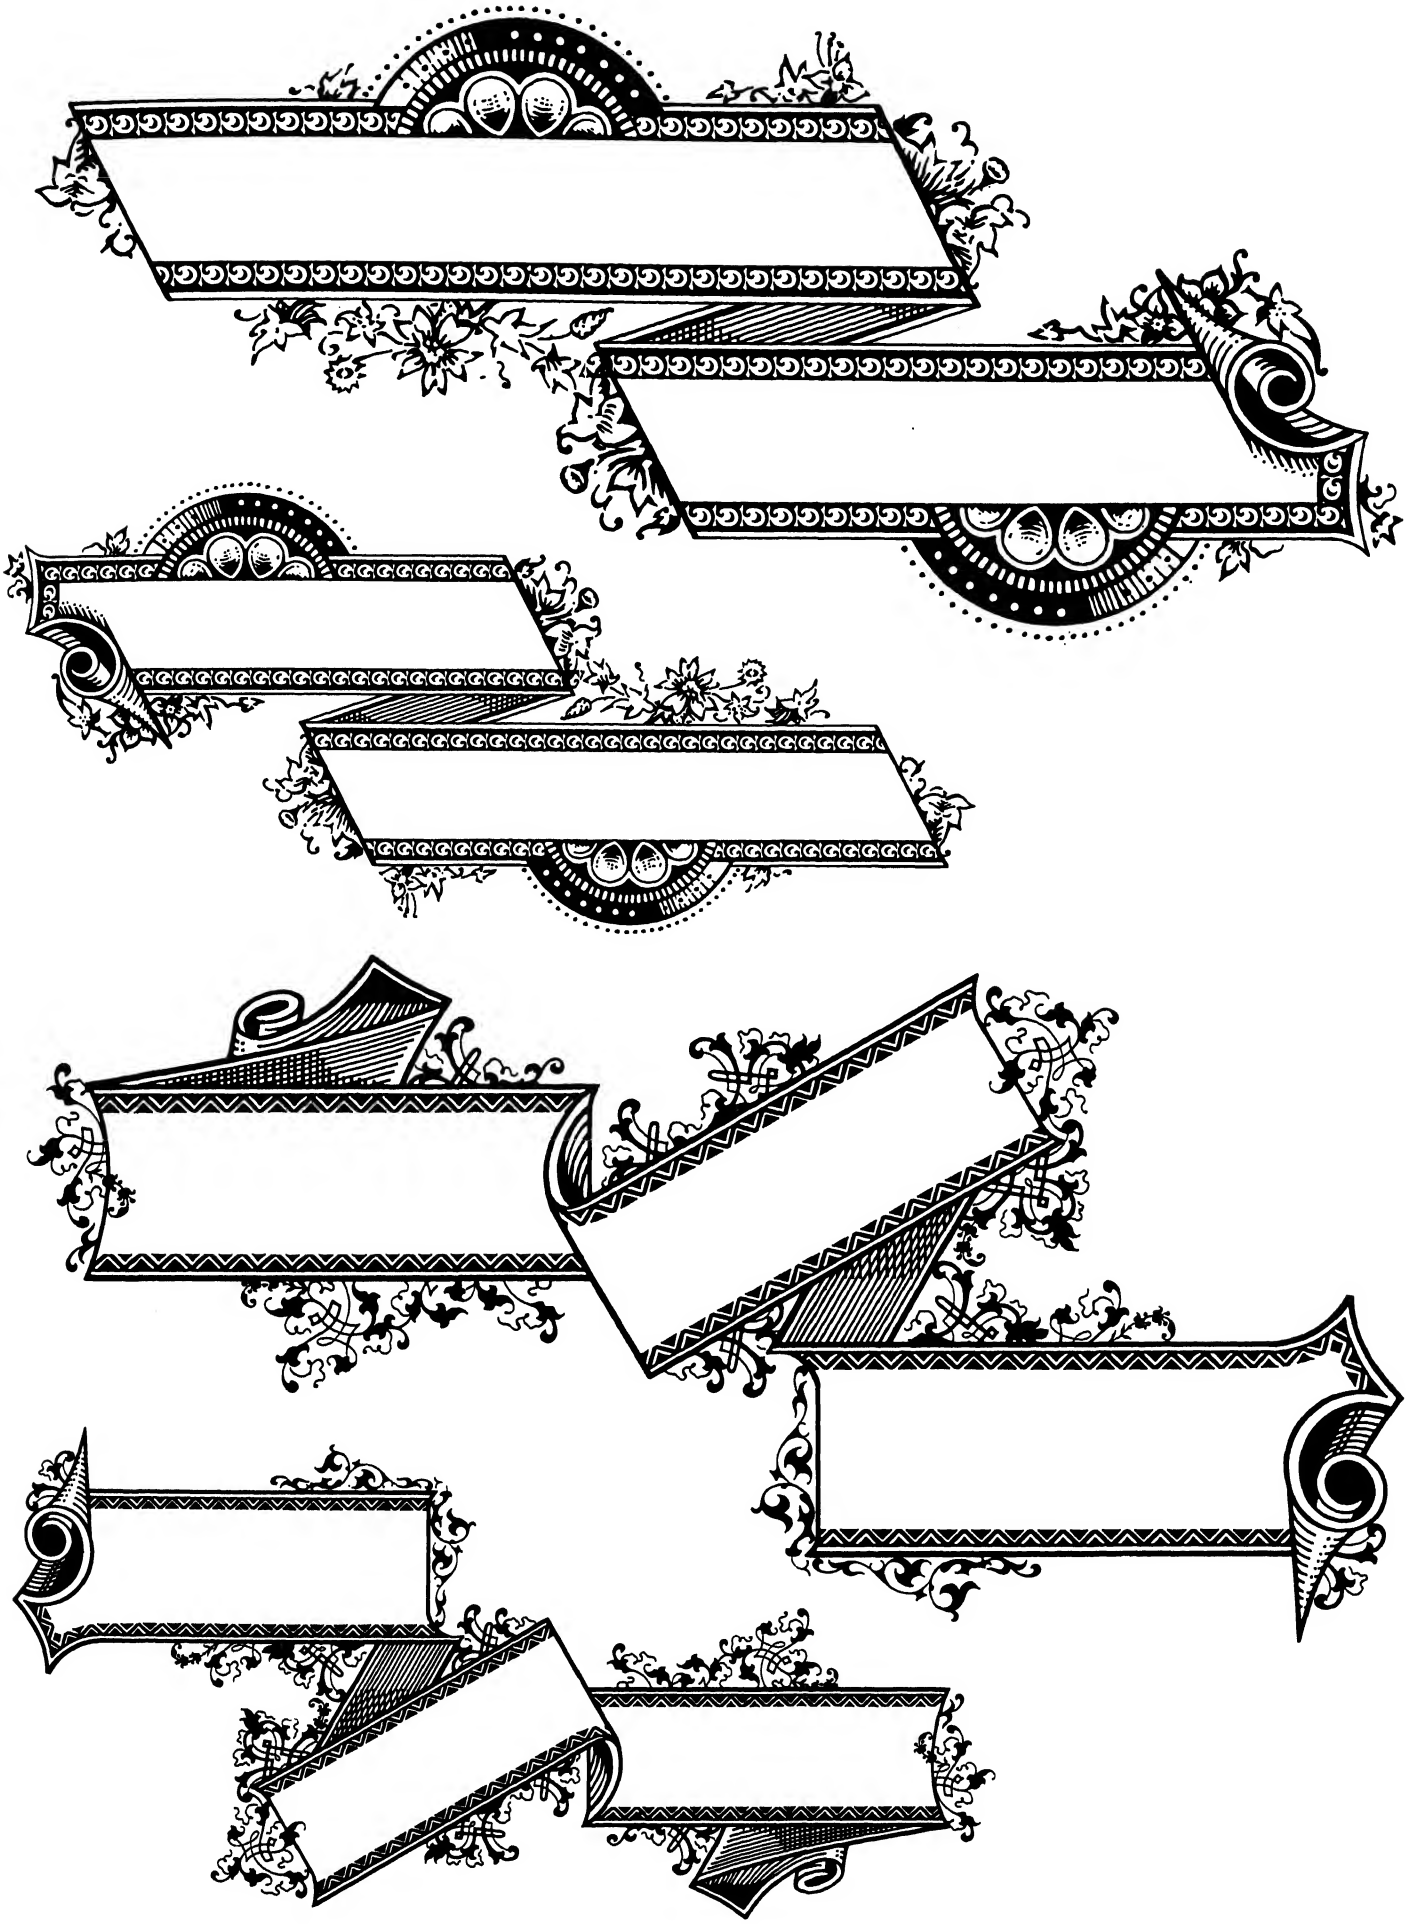


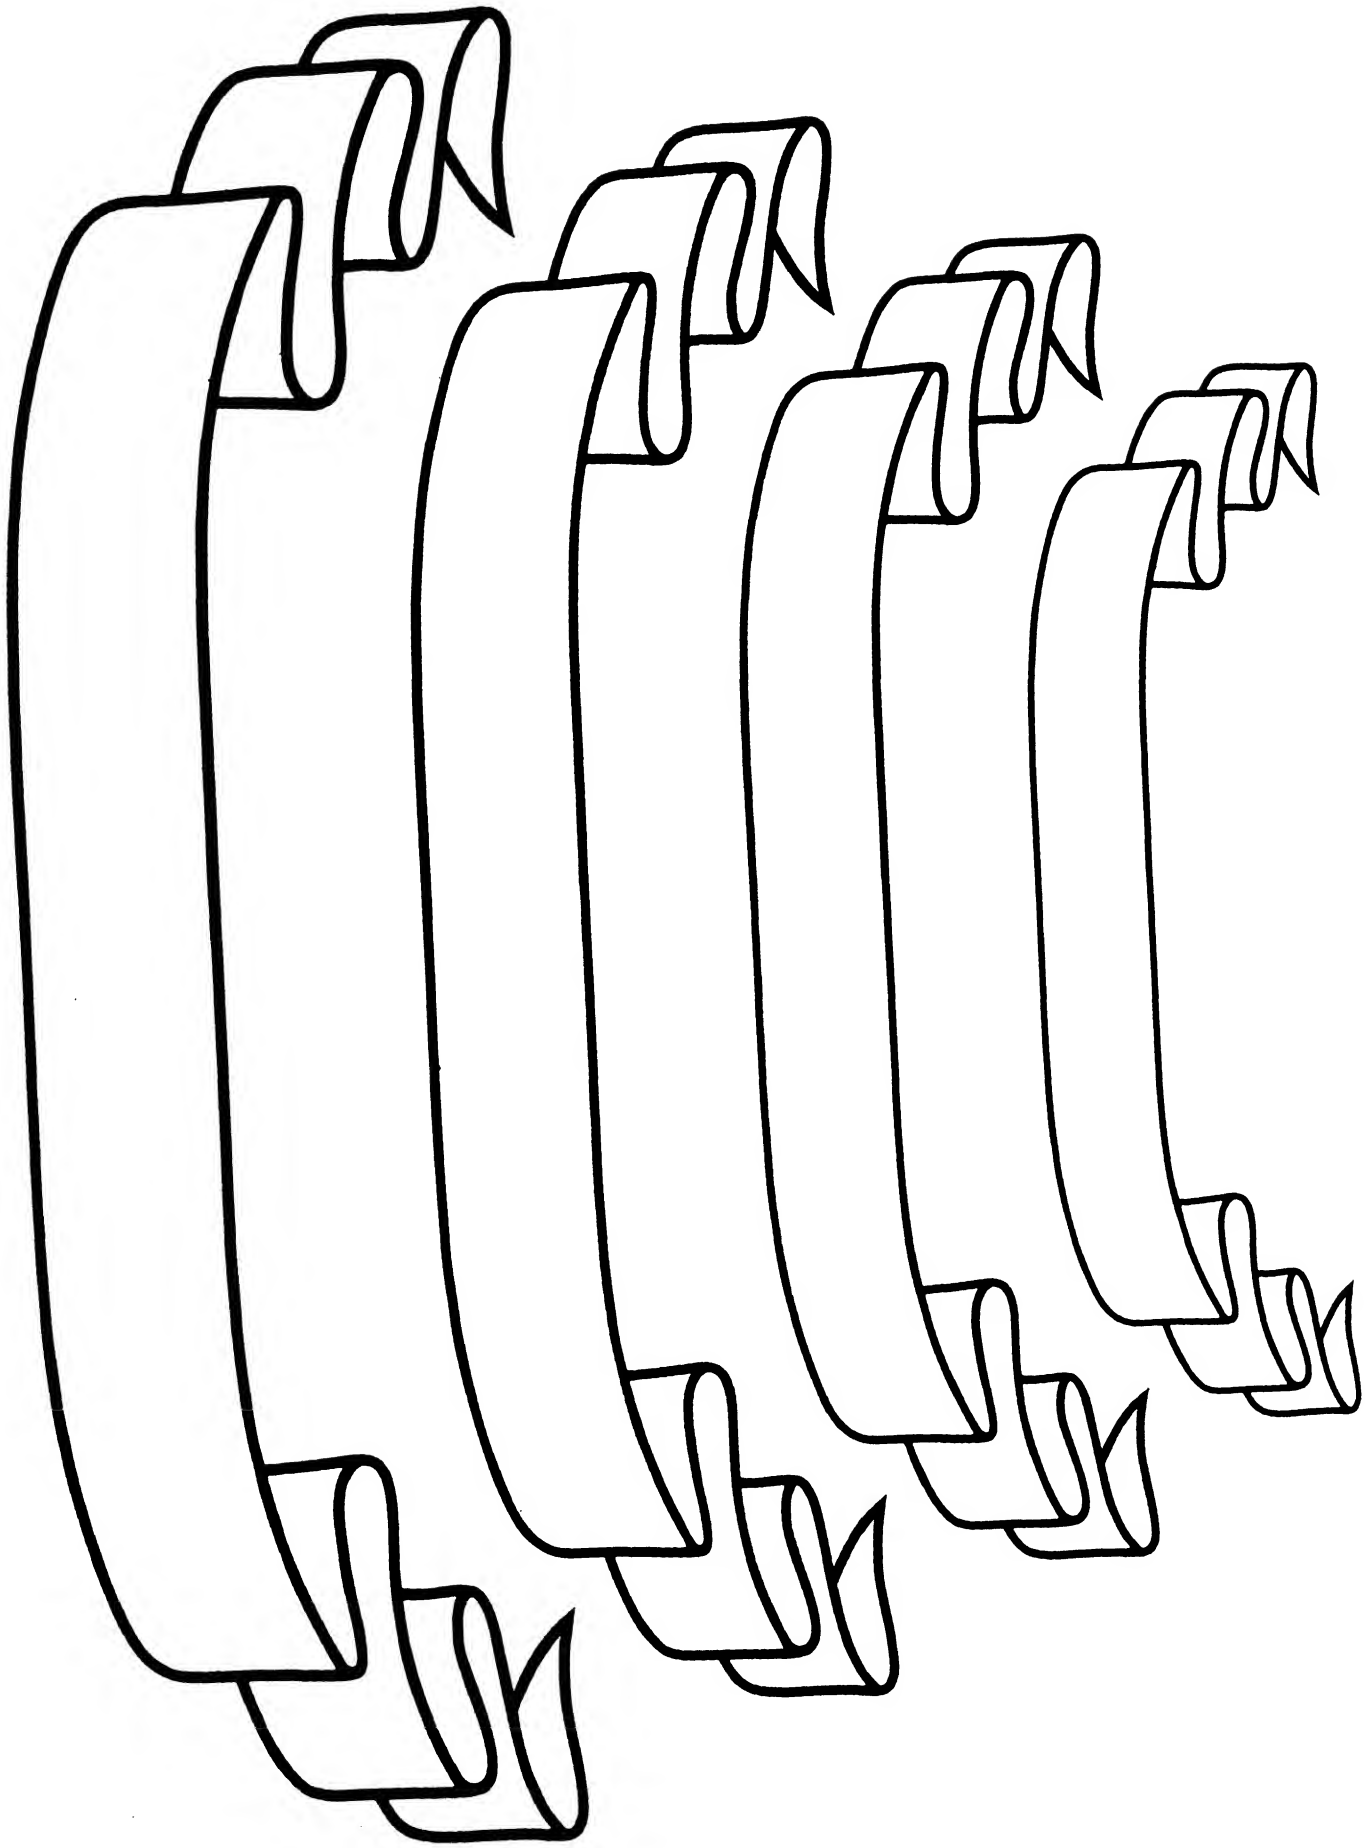


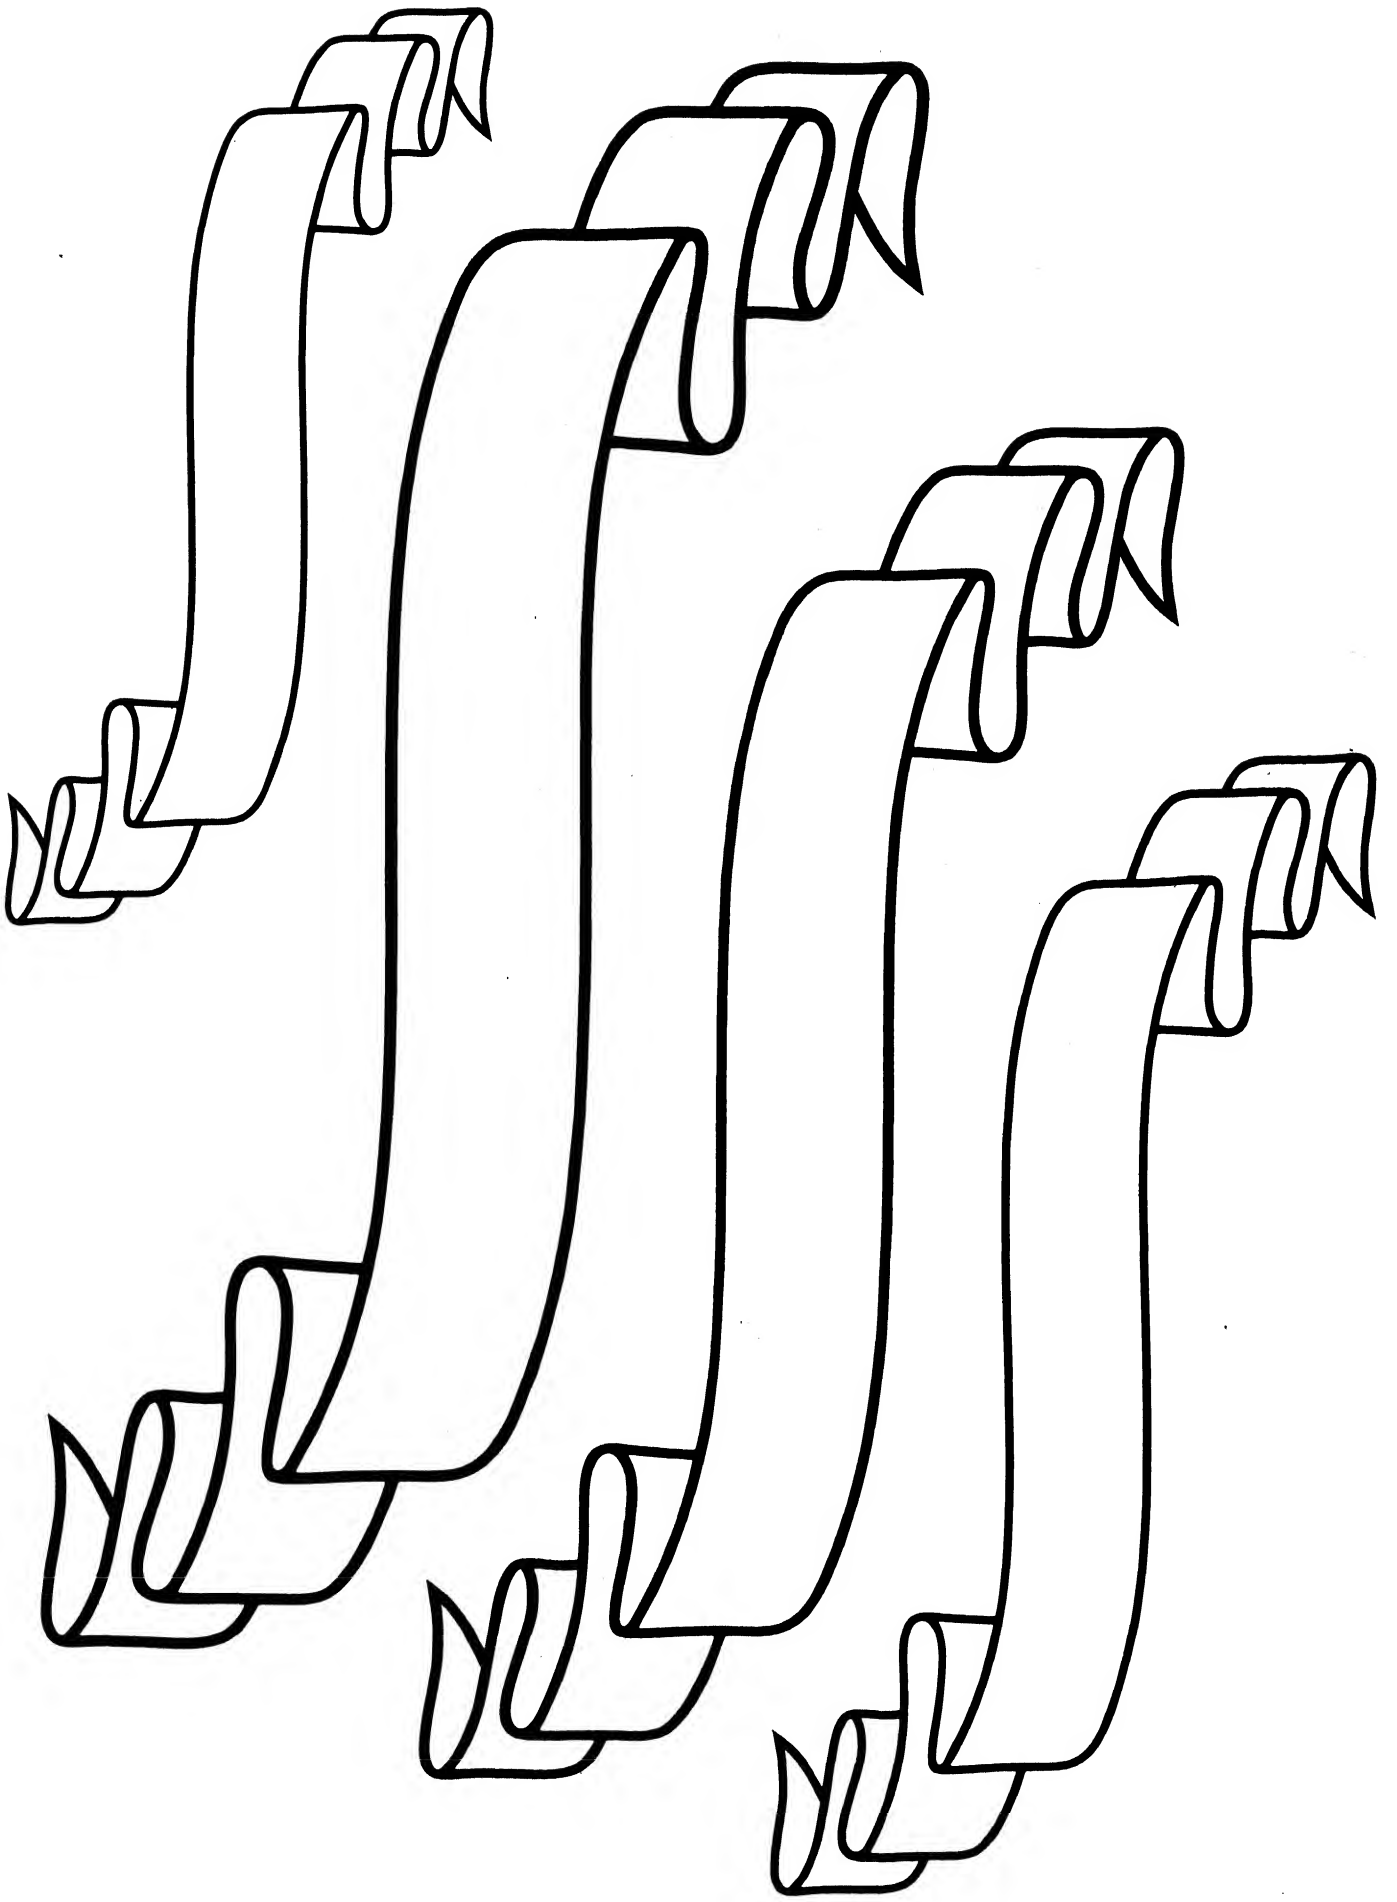


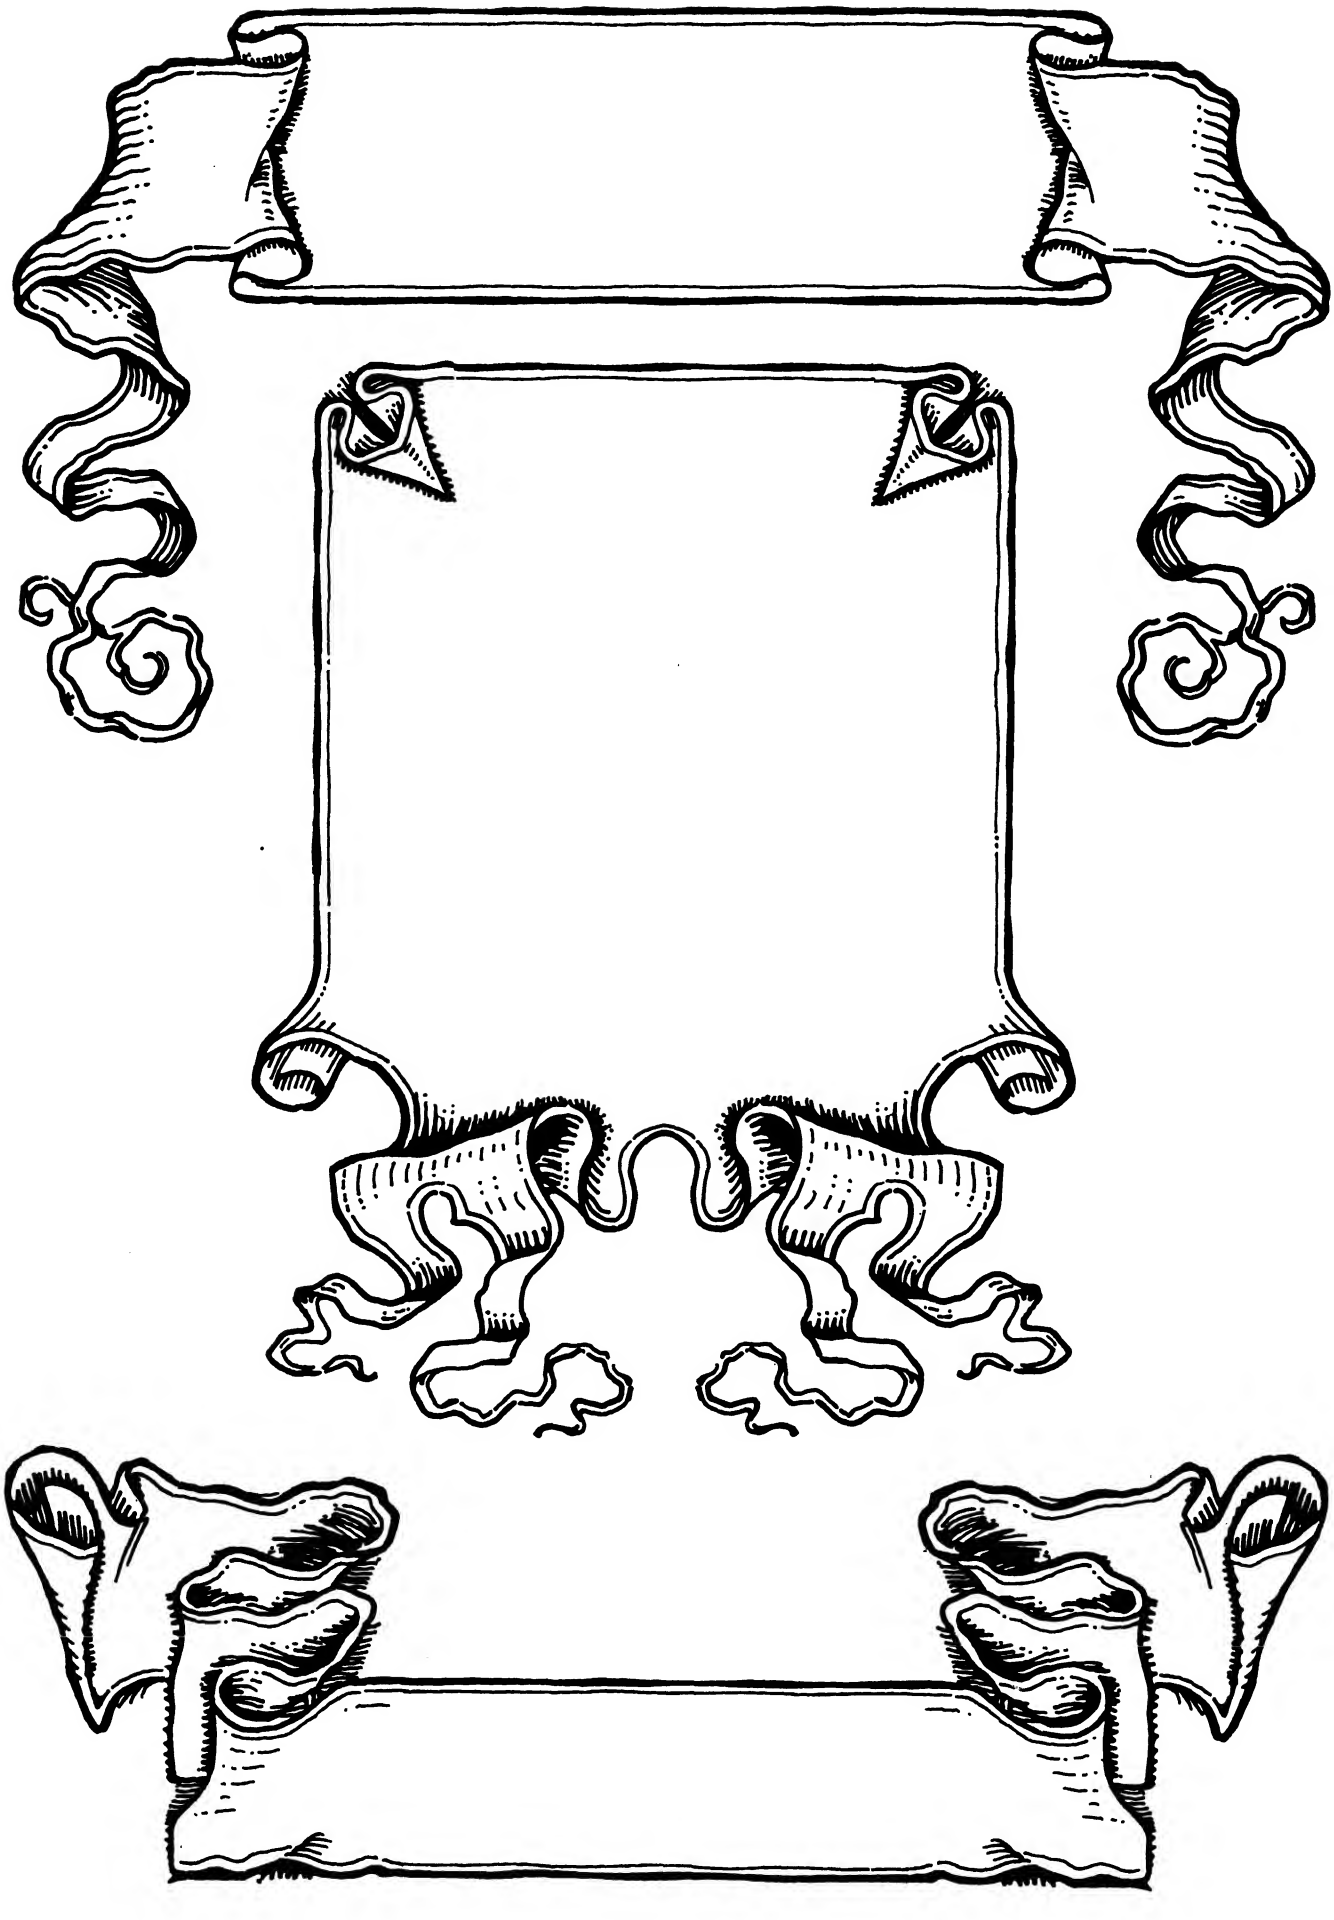


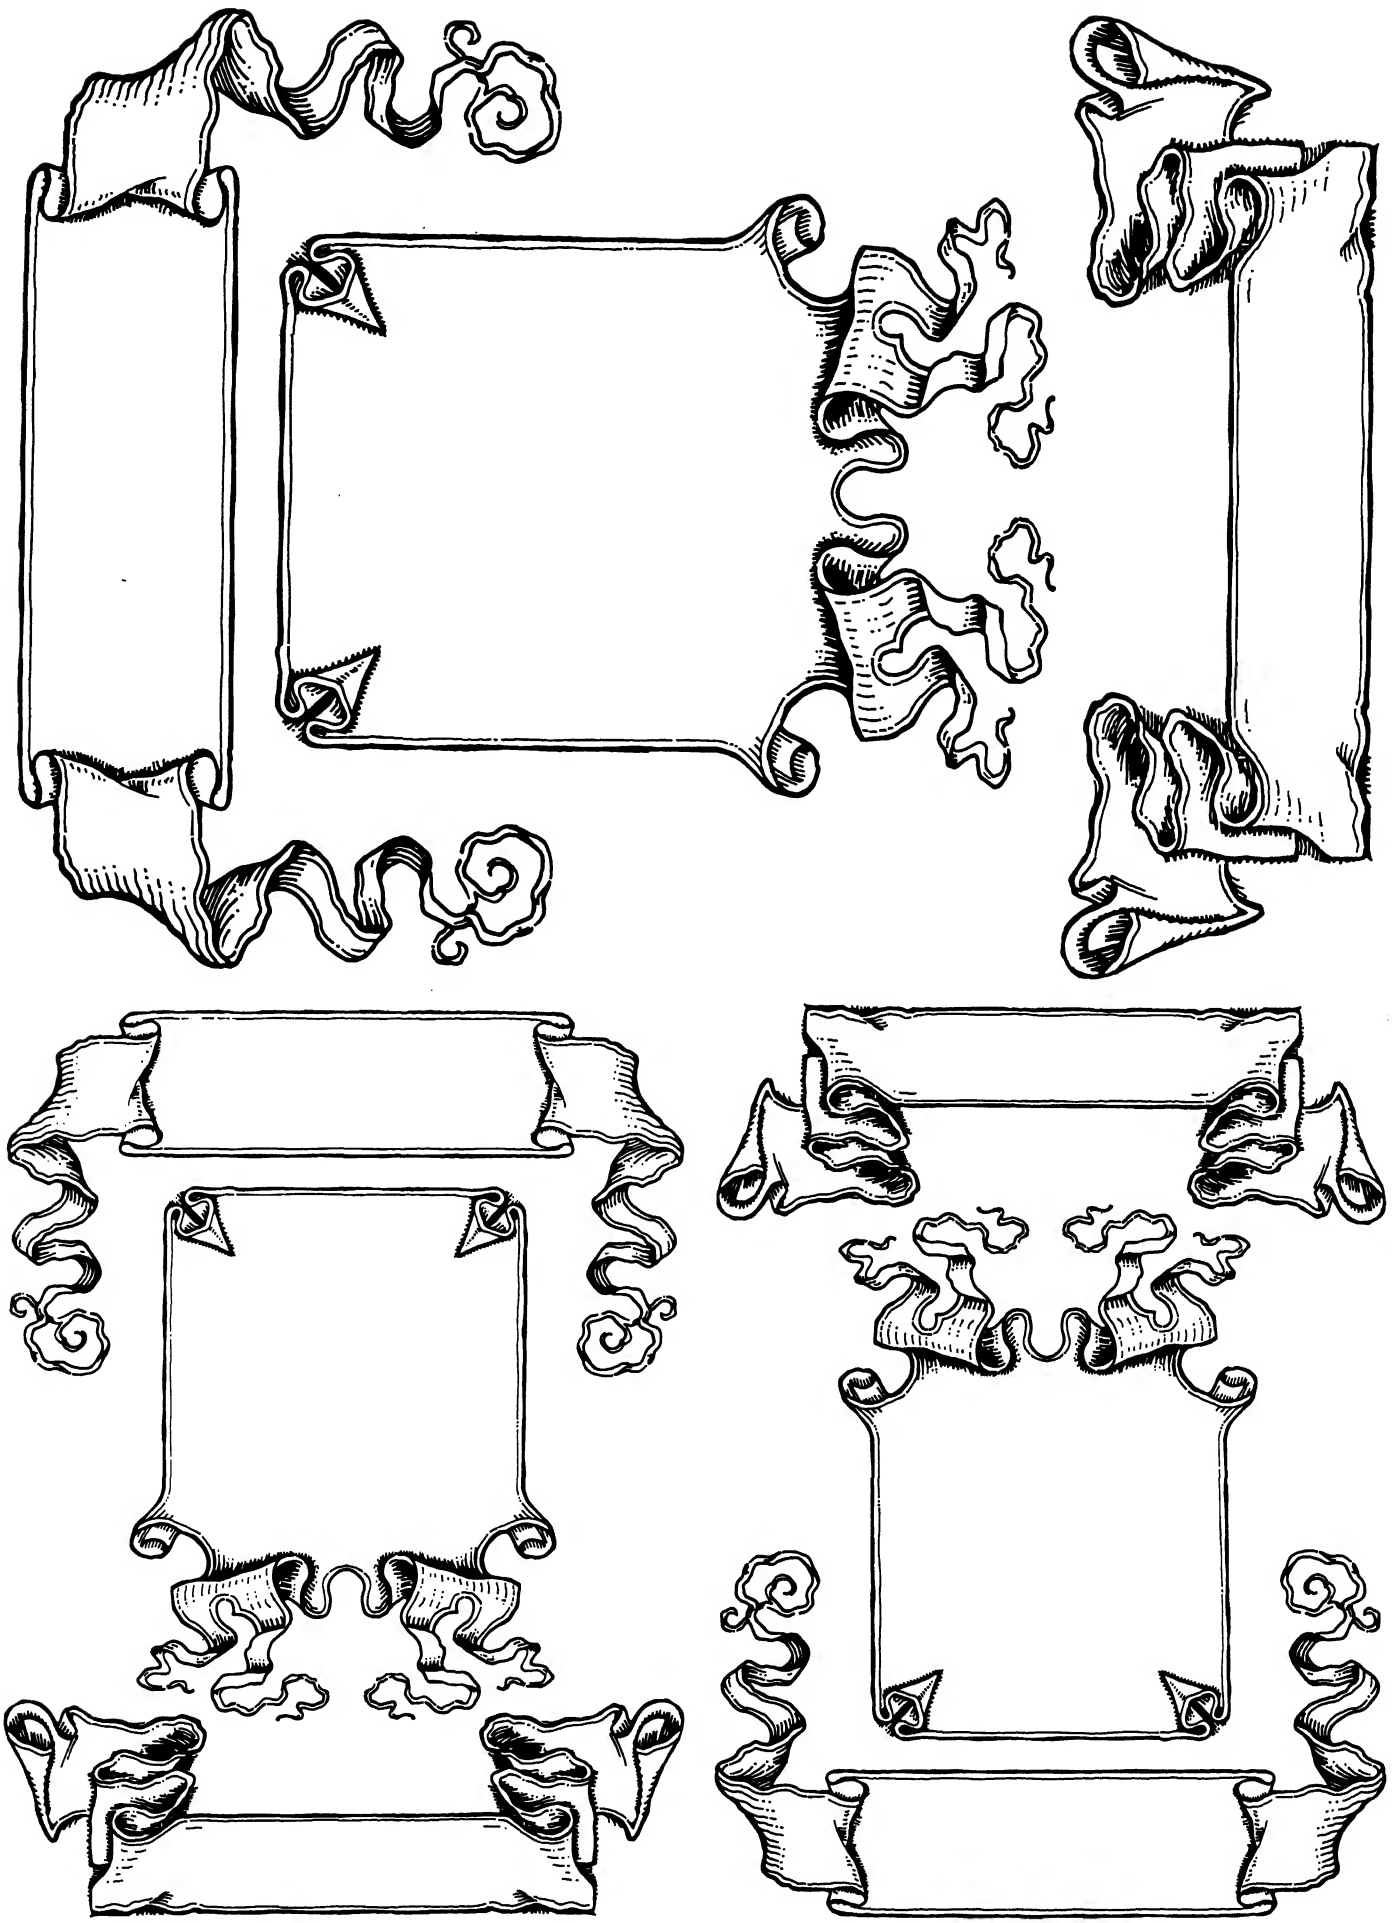


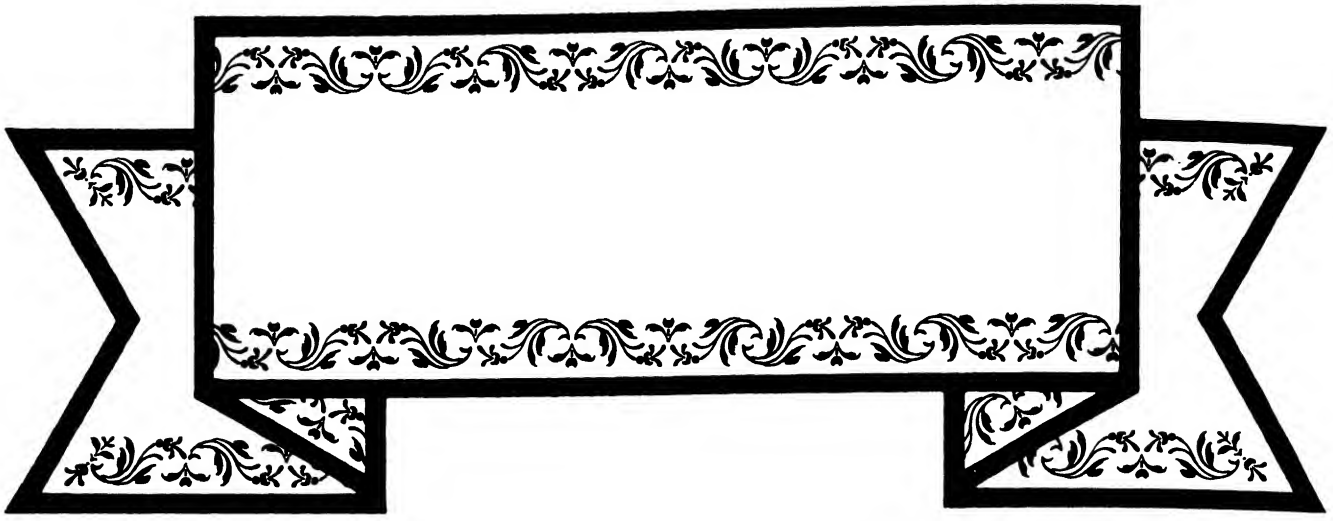


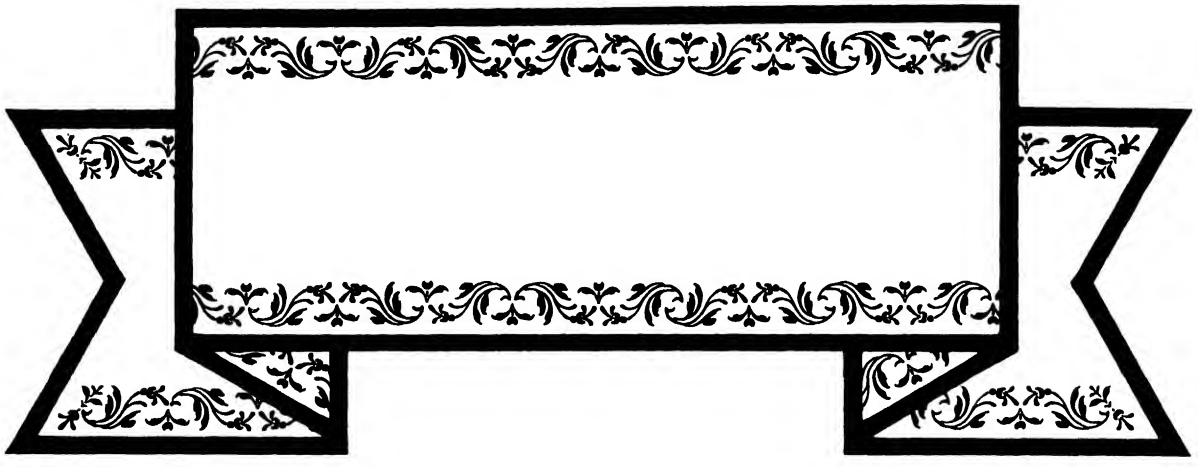


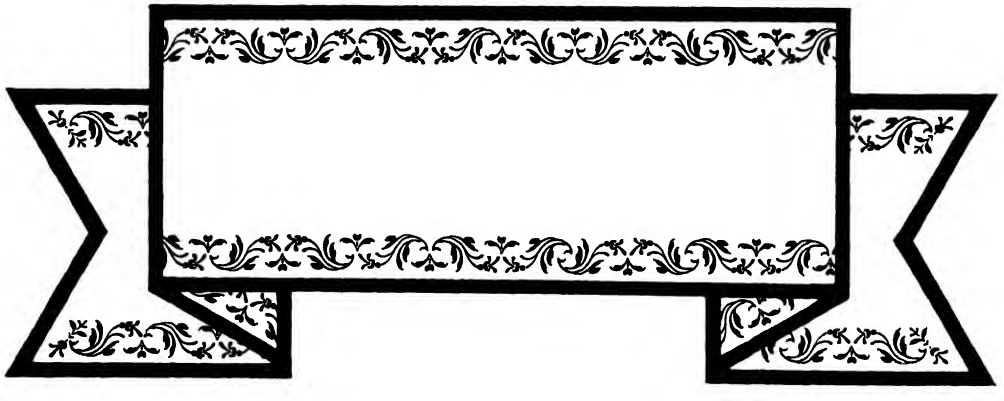


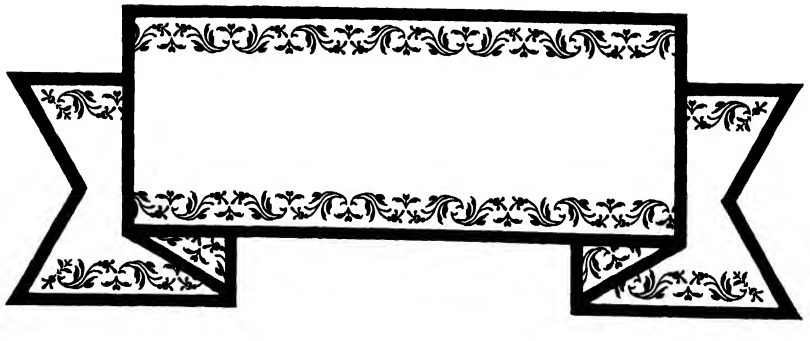


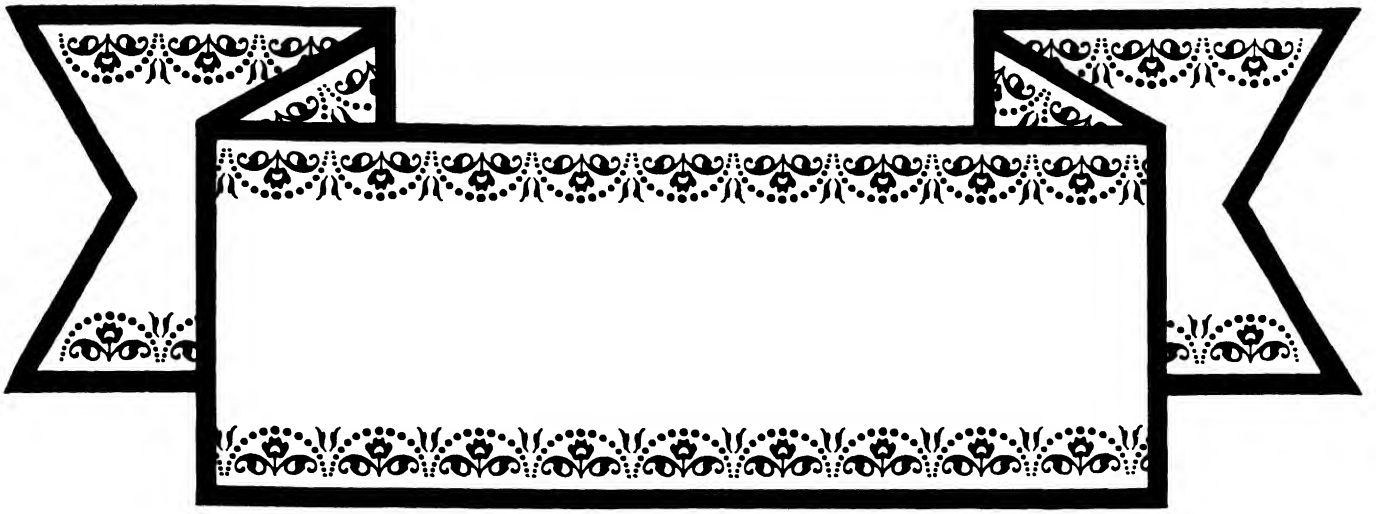


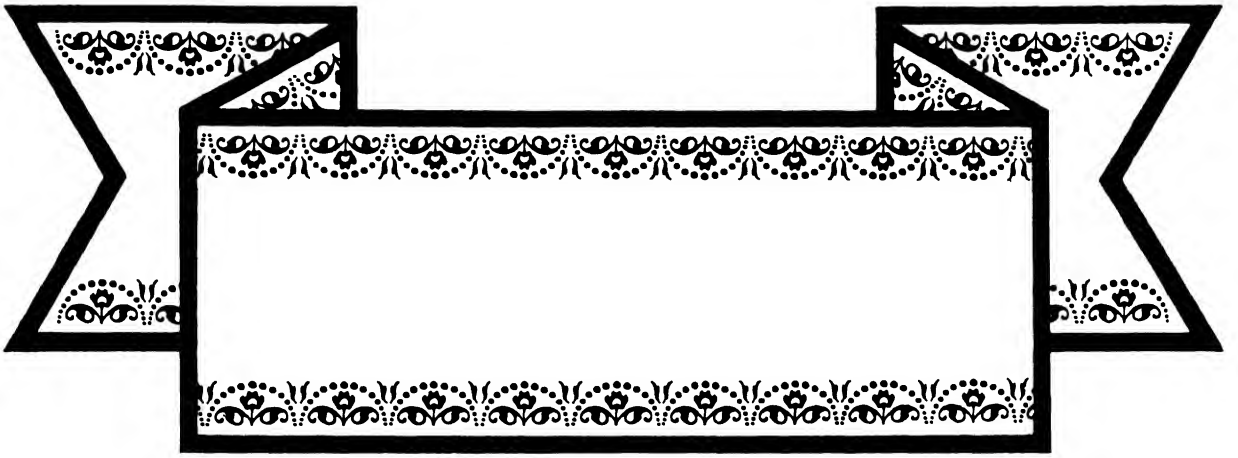


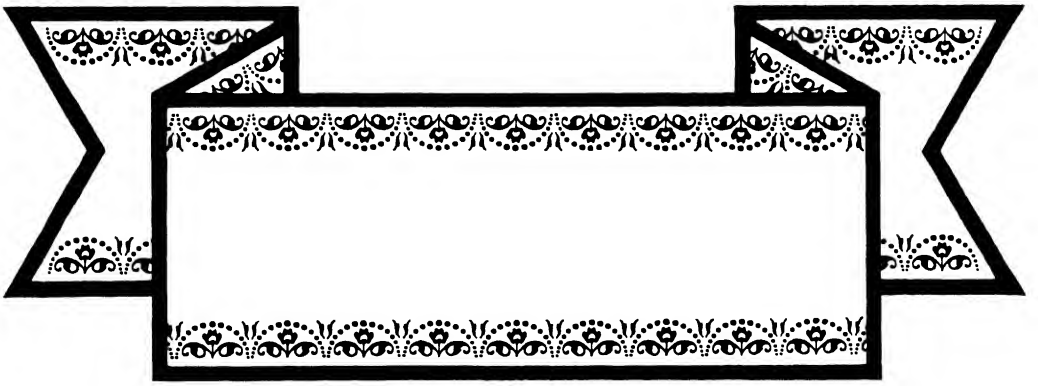


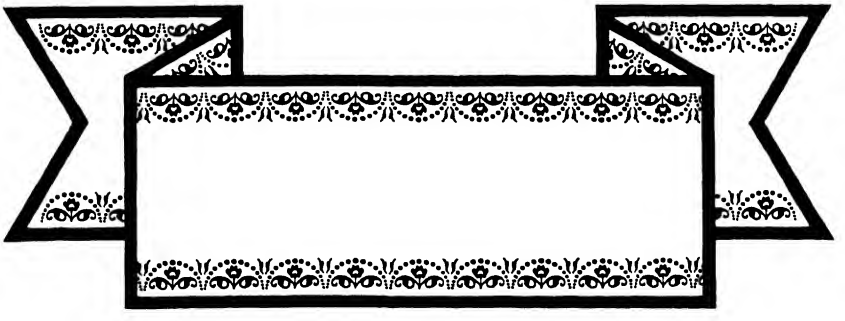


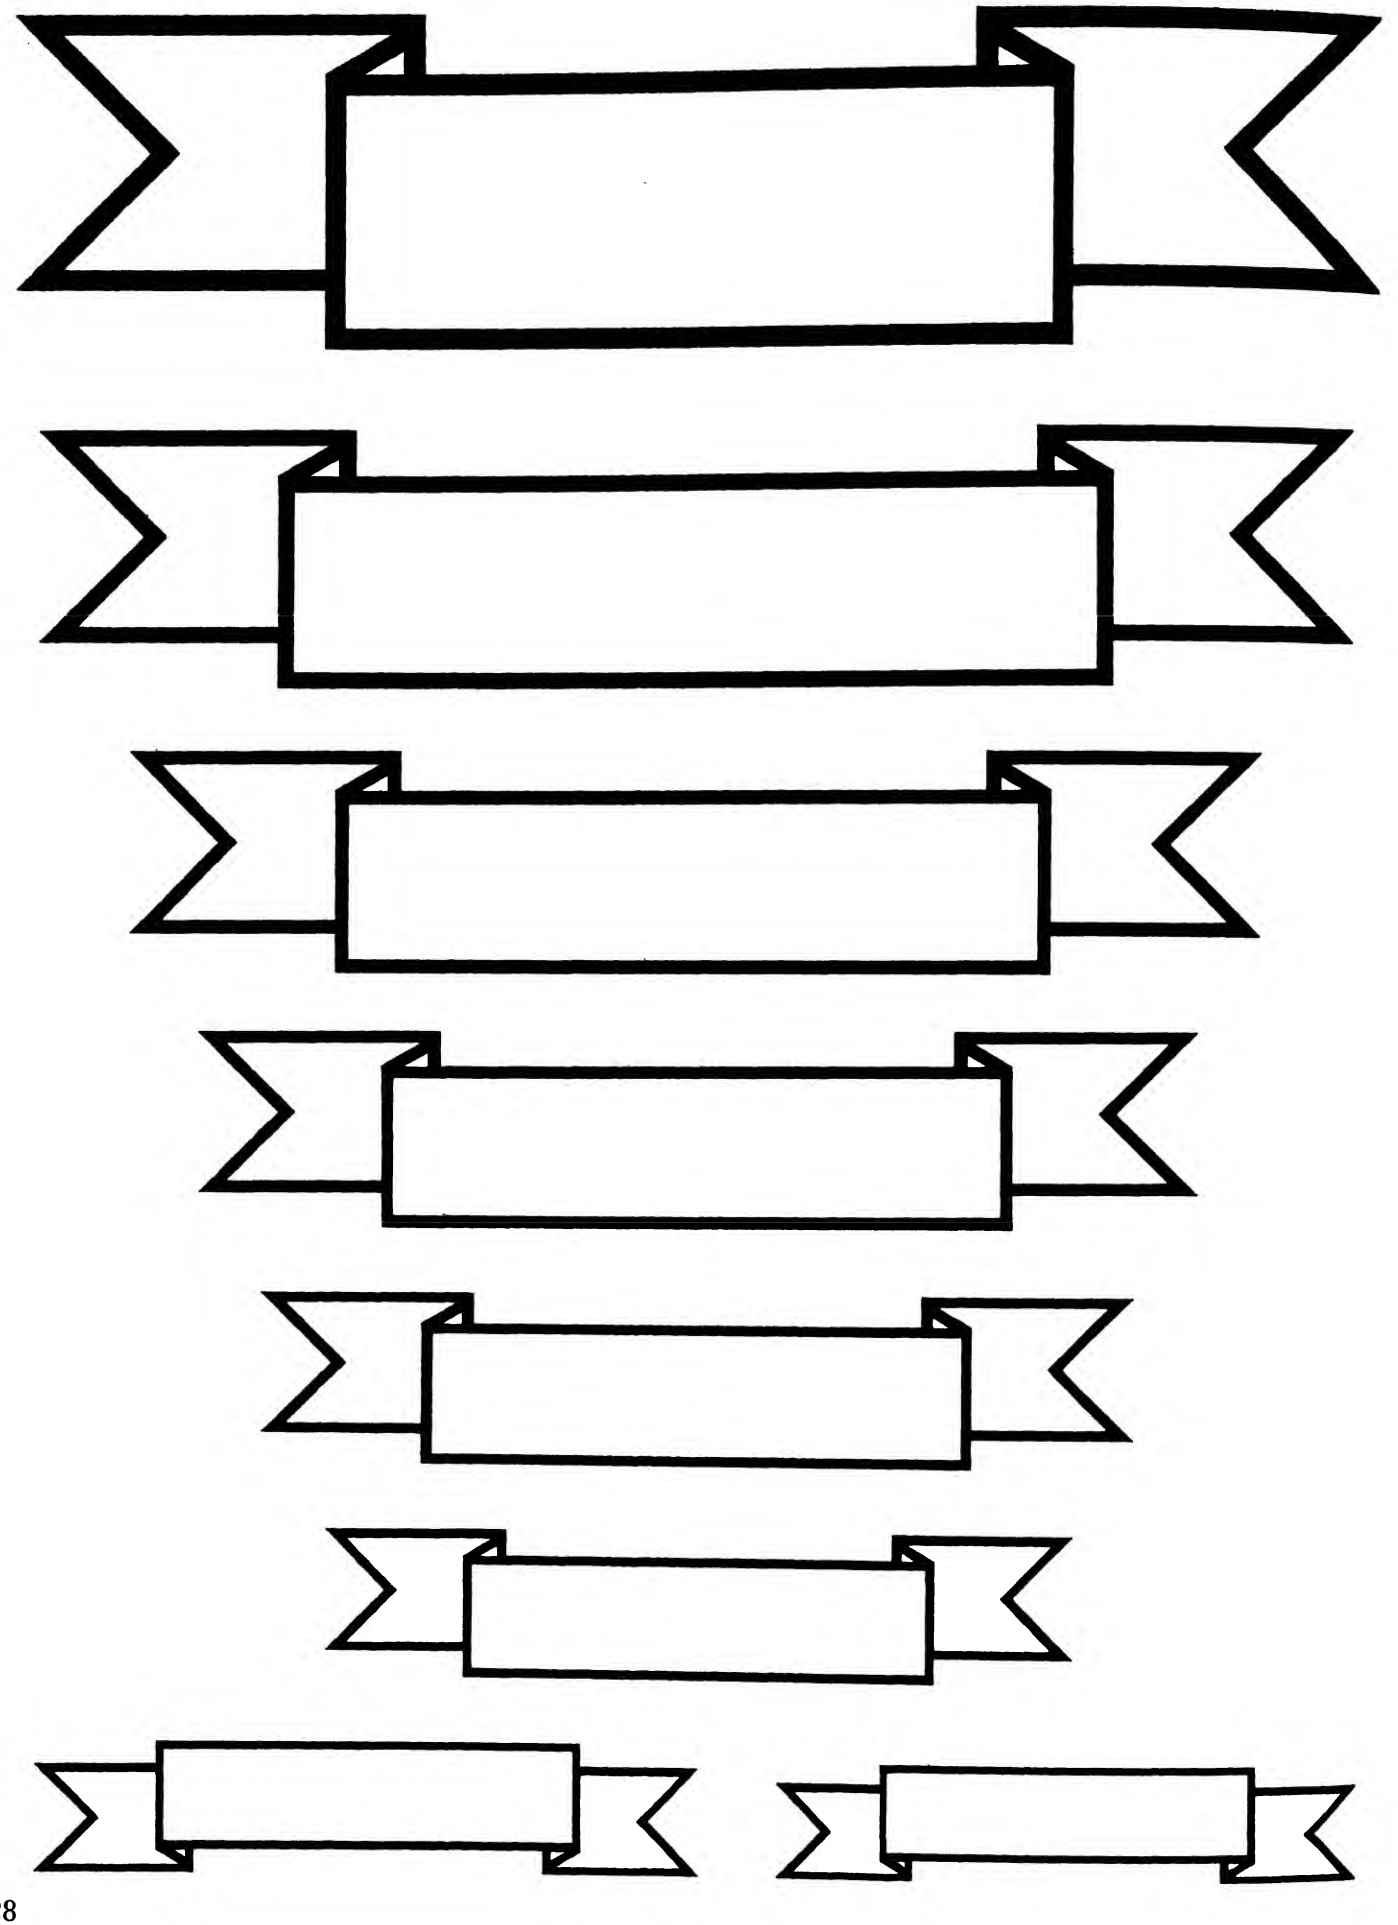


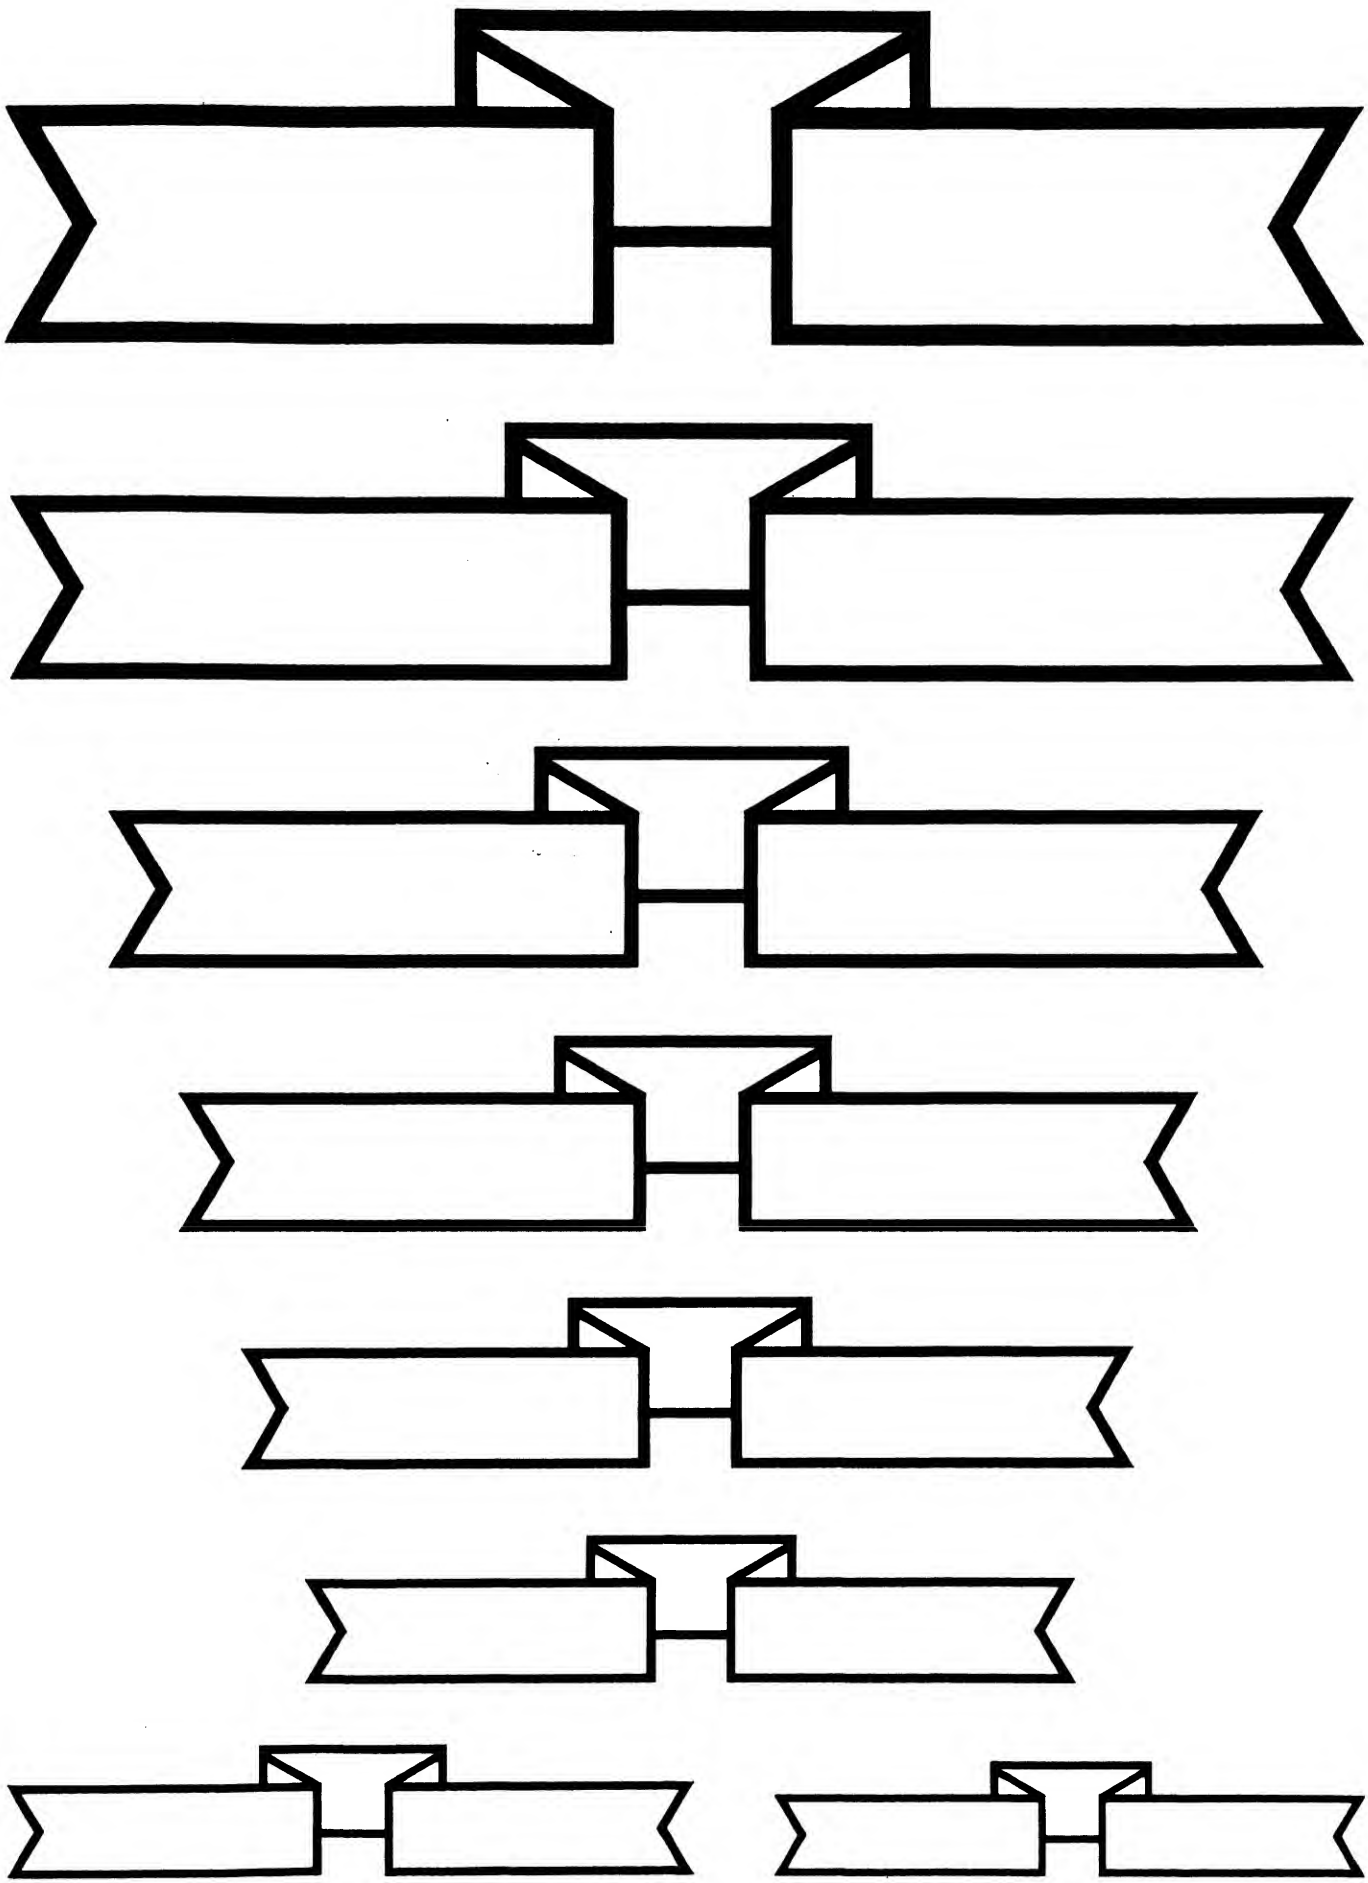


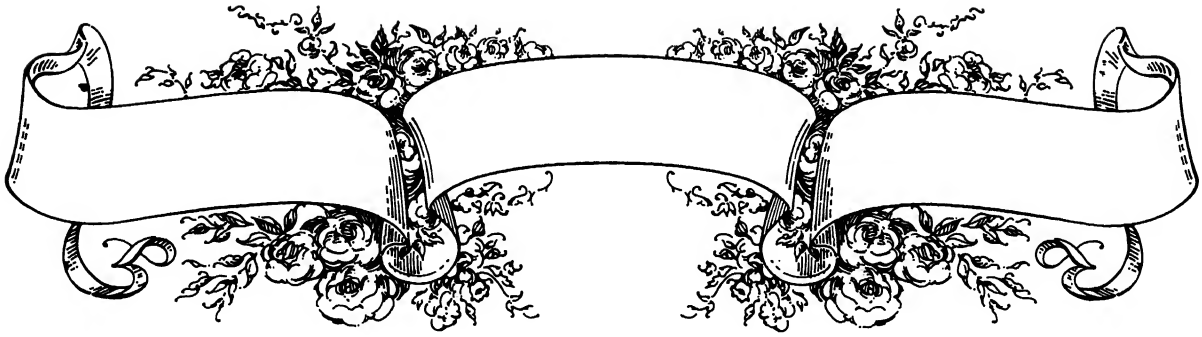


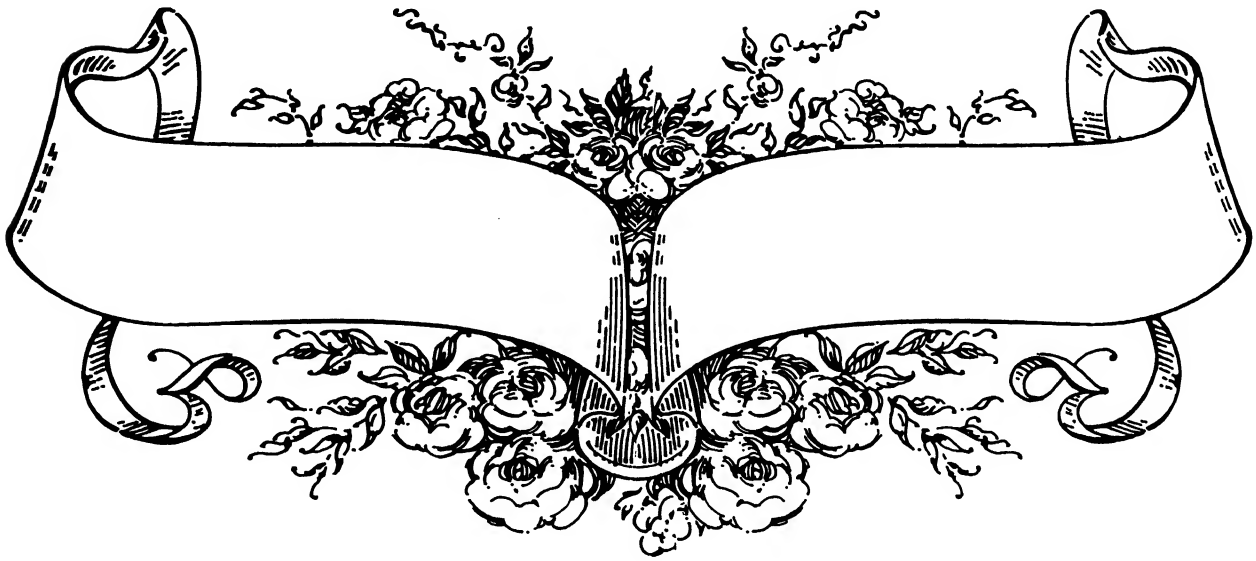


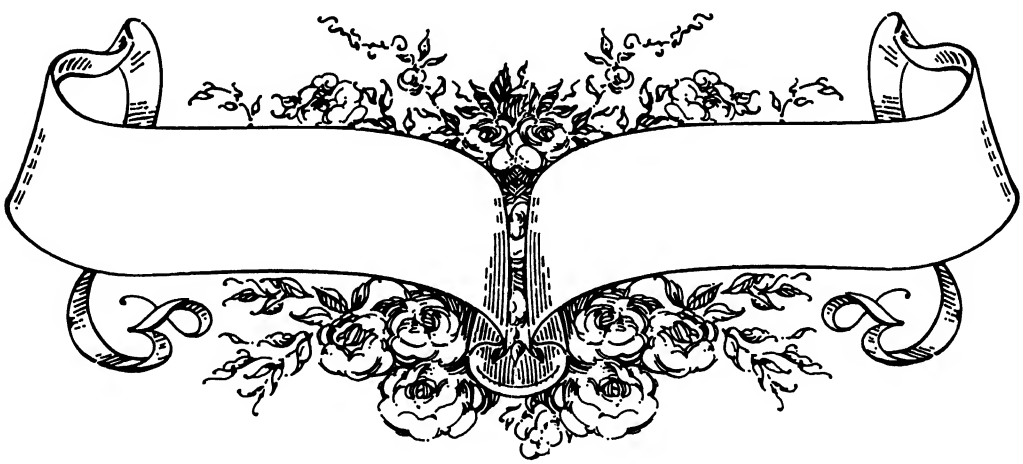


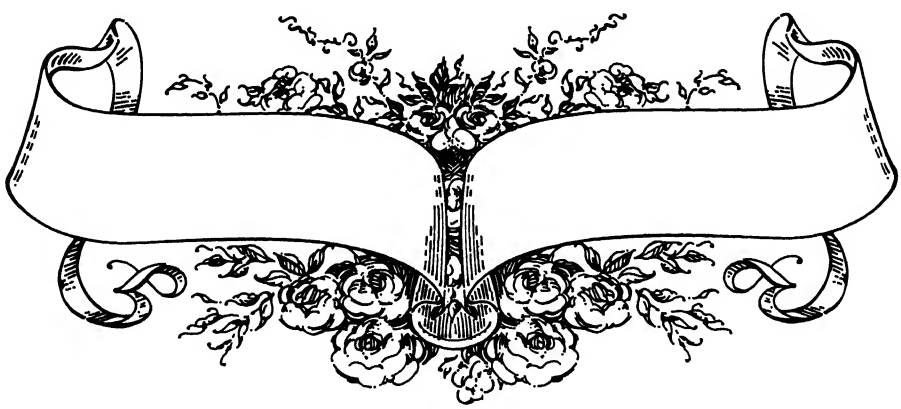


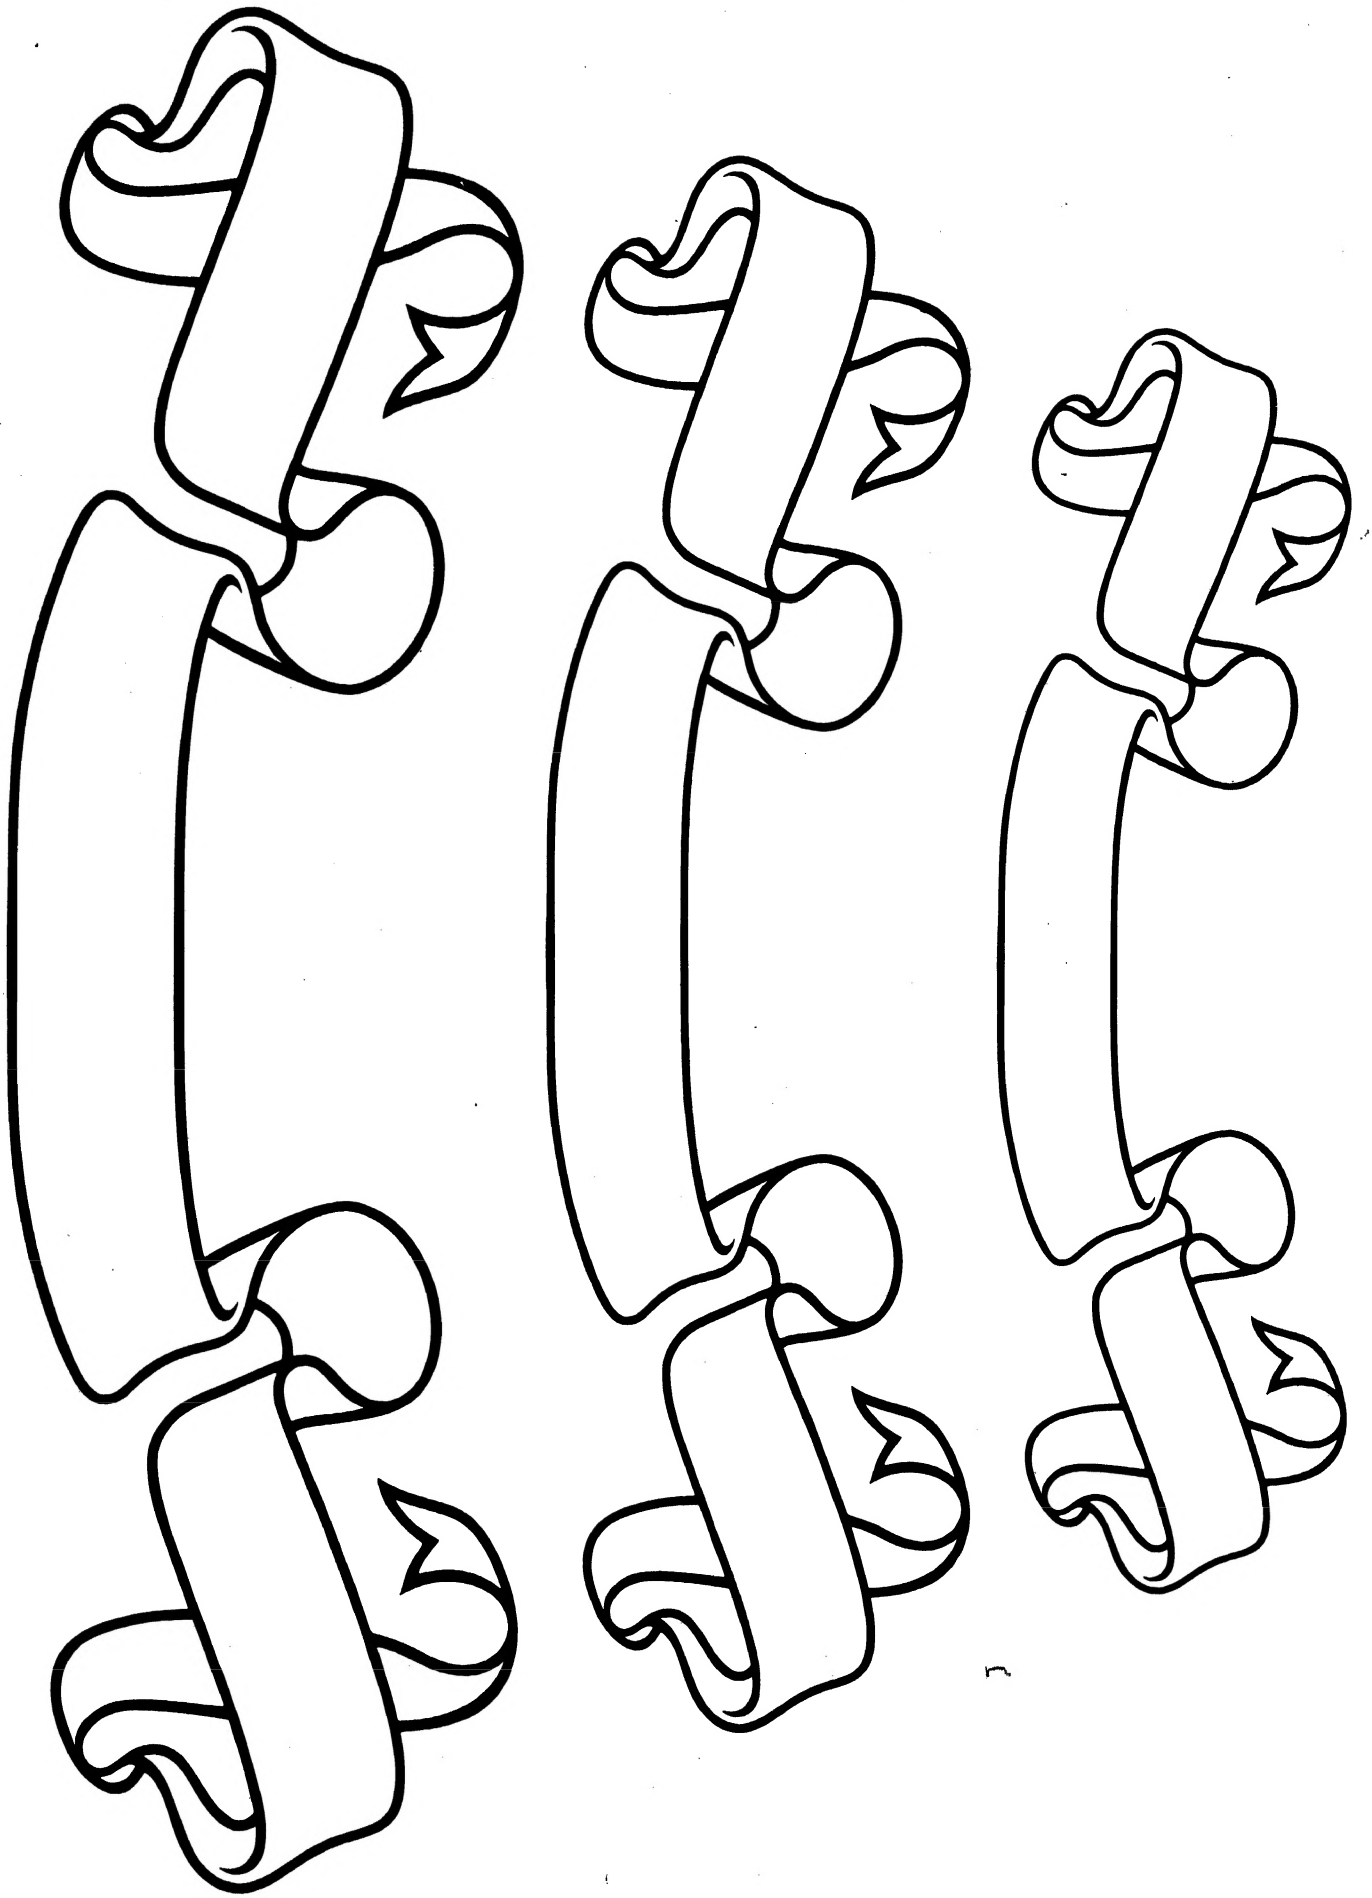












The typography in these designs is from READY-TO-USE HEADLINES, a Dover Clip Art Series® book.

READY·TO·USE BANNERS

TED MENTEN

Banners are among the most useful elements in graphic design. They emphasize, decorate and highlight messages necessary for ads, announcements and sales.

This collection contains dozens of banners in a variety of sizes, shapes and styles: large, small, medium-sized, vertical, horizontal, bold, delicate, casual, formal, flamboyant, simple, contemporary, old-fashioned, etc. All of the banners have been designed so they can easily be lengthened or shortened by following the simple instructions on the inside cover.

All the illustrations are directly and immediately useable without statting. Everything included is copyright-free. The art is printed in crisp, black images on one side only of glossy white paper.

Original Dover (1979) publication. 32 plates. 64pp. printed on one side only. 8¼ x 11. Paperbound.

THE DOVER CLIP ART SERIES

This book is a title in the Dover Clip Art Series. The copyright-free art in these books may be cut out and used directly, without statting. The 32 sheets in each volume are more varied and attractive, easier to use, and far less expensive than any comparable sheets now being sold.
